PARIS, March 29.—The death  
of a pretender to the throne of  
France has caused consternation  
among royalists. He always had  
suspected that the question of  
his death should be his successor,  
and his death, the royalist party  
has itself without plans.

The next in line of succession is  
the Duke of Guise, son of the  
Duke of Orleans. By many it is  
thought he will decide to forego  
his claim to the throne of France  
in favor of his young son, Prince  
of Orleans, who is 16 years  
old.

The Duke of Guise is a fine  
figure in France. Up to the present  
the Duke has always kept out  
of politics, which gives weight to  
his claim to the throne.

## FASTS 44 DAYS AND SETS A NEW WORLD'S RECORD

Herr Jolly in Berlin Now in  
Final 24-Hour Period in  
Glass Cage.

By the Associated Press.  
BERLIN, March 29.—Herr  
Jolly, professional faster, will  
have exceeded by a full day the  
world's record for abstention from  
food now held by Signor Malatti  
of Italy.

When Jolly last night completed  
the forty-third day of his fast, he  
smiled triumphantly, knowing  
that every minute thereafter was  
part of a new world's record. Jolly,  
who came from Krefeld, announced  
Feb. 12 that he intended to  
exceed the record by a day. He  
was then locked in a glass cage  
with 400 bottles of carbonated water  
and 5000 cigarettes, as well as a  
radio loud speaker, books and  
writing material.

Three hundred thousand Germans  
have viewed the faster paying  
50 pfennigs each, from which  
the luxury tax has been sufficient  
to pay the salaries of the Lord  
Mayor and borough Mayor  
throughout his voluntary hunger  
strike.

Jolly weighed 150 pounds when  
he entered the cage. Today his  
weight was 100 1/2. His previous  
record for abstention from food  
was 34 days.

While in the cage he has re-  
ceived more than 200 marriage  
proposals.

DOCTOR TO ESCAPE  
TRIAL IN OLD CASE

New Jersey Governor Won't  
Extradite Man, 94, on 45-  
Year-Old Charges.

ASBURY PARK, N. J., March 29.—  
Gov. Moore, in a statement  
released here today, announced  
that he would not extradite  
extradition papers for the return  
to Birmingham, N. Y., of Dr.  
Rome Oshaldstone, 94-year-old  
physician and criminal.

Dr. Oshaldstone was charged with  
murder, three for 25 years ago  
charges that he is a horse thief and  
an escaped prisoner.

## ENGLAND TALKS WITH CHICAGO BY TELEPHONE

Message Broadcast From Rugby Picked Up  
in Maine and Relayed by Way of  
New York.

By the Associated Press.  
CHICAGO, March 29.—When  
William H. Stafford answered his  
telephone last night he was start-  
led to hear the operator calmly  
say "Hold the line for Rugby, En-  
gland, please." A moment later he  
heard the voice of his son-in-law,  
Arthur A. Oswald, whom he knows  
to be in England.

For 20 minutes the conversation  
went on. Oswald, who designed  
and built the Rugby radio tele-  
phone station for the British postal  
service, telling his father-in-law of  
the success of the venture.

The message broadcast from  
Rugby, was picked up by an un-  
identified station on the Maine coast  
and relayed by telephone to New  
York, and thence to Chicago. It  
was reported to be the first time a  
telephone conversation had been  
carried on between Europe and Chi-  
cago, although such communica-  
tion has been established with cities  
on the Atlantic coast.

2500 Miles of Circuit Was Through  
The Air.  
By the Associated Press.  
NEW YORK, March 29.—Radio  
phone conversation between Rug-  
by, England, and Chicago, yes-  
terday, was an accident and not part  
of the planned transatlantic tests  
which have been conducted regu-  
larly since the English station was  
opened. It happened so simply  
and easily an officer of the Ameri-  
can Telephone and Telegraph com-  
pany explained today that no official  
policy was taken of it.

Arthur A. Oswald of the Bell  
Telephone Laboratories here, was  
speaking from the Rugby radio  
phone station of the British Gen-  
eral Postoffice. He said one of  
the engineers in New York to con-  
nect with the home of his father-in-  
law in Chicago. There was the  
news in the family.

The connection was made just as  
long-distance credit would be  
connected, the operators having no  
notion that they were making tele-  
phone history, but in this instance  
2500 miles of the circuit was  
through the air from Rugby to  
Boston, N. Y.

Officers of the company ex-  
plained that their wires were not  
equipped at present to put through  
such calls, even in cases of great  
emergency, unless conditions were  
just right.

CHARGE OF FRAUD  
AT SCRANTON, PA.

Prisoner Denies That He Is  
Harry Jacobs Sought —  
Widow Seeks Return of  
\$5000.

"The man we want has one pecu-  
liarity—he can eat as much as  
three ordinary men."

Authorities at Scranton, Pa.,  
wrote this to Chief of Detectives  
Kaiser in requesting the arrest of  
Harry Jacobs, alias Green, alias  
Teller, wanted for a \$10,000 fraud  
at Scranton, Pa., and for jumping  
a \$10,000 bond at Poughkeepsie,  
N. Y.

They described the man as about  
40 years old, weighing 240 pounds  
and 5 feet 7 inches tall, and sug-  
gested he might be found at the  
Lindell Plaza Hotel, 4299 Lindell  
boulevard.

A circular, with the  
fingerprints of the man, was dis-  
tributed to the police and  
detected a guest registered as Hen-  
ry Ludwig, had the reputation of  
eating seven pork chops and a half  
dozen eggs at one breakfast. He  
was about 40 years old, tall and  
weighed about 240 pounds. The  
detective thought he resembled  
the man whose photograph ap-  
peared on the circular. He said  
there was little resemblance, but  
they arrested him anyway.

Man Protests Innocence.  
That was last Friday and since  
then Ludwig has been in a cell at  
Police Headquarters. Indignant  
over what he asserts is an unwar-  
ranted detention and disappointed  
over the meager meals served there,  
today Ludwig, in charge of the  
Berlin Department, compared  
fingerprints of Ludwig with those  
of Jacobs and announced they were  
identical. This only made Ludwig  
more emphatic in protesting inno-  
cence.

"I was never in trouble and I  
was never in Scranton," Ludwig  
said. "I am 55 years old, not 45,  
I don't know what I eat as much  
as three men, but I do like to eat.  
That is natural for a man with my  
appetite and surroundings."

"I came to St. Louis from Ha-  
vana, Cuba, eight months ago and  
have been making big money as a  
collector for the Missouri State Life  
Insurance Co. I own a valuable  
lot near Nineteenth street and  
Washington avenue and I'm willing  
to stake that as my bond. My ar-  
rest is a mistake."

Never in Scranton, He Said.  
Searching Ludwig's room at the  
hotel, the detectives reported find-  
ing a note with the name of a  
Scranton, Pa. dealer. He still in-  
sisted he had never been in Scranton.

## 24 LAWYERS DISBARRED BY MELLON FOR COLLUSION

SENATOR GLASS  
MADE COMPLAINT

Allegations Cite Attempt  
to Bribe Income Tax  
Unit Employees and Ob-  
tain Extra Lists.

By the Associated Press.  
WASHINGTON, March 29.—  
Twenty-four lawyers have been dis-  
barred from practice before the  
Treasury Department as a result  
of an investigation of charges of  
collusion between them and em-  
ployees of the Internal Revenue Bu-  
reau.

A list of those disbarred made  
public today by Secretary Mellon,  
also included 15 others suspended.  
The disbarments covered a period  
of three years.

Charges against the lawyers were  
varied, some including attempts to  
bribe employees of the income tax  
unit and others involving in-  
vestments by the lawyers to ob-  
tain lists of taxpayers subject to  
extra assessment.

Senator Glass (Dem.) of Virginia,  
former Secretary of the Treasury,  
complained recently against prac-  
tices of this character.

The list of lawyers who have  
been disbarred includes David  
Guglin and Louis I. Smith, New  
York City; Hilson A. Farrell and  
Theodore J. Richmond, Passaic, N. J.;  
George B. Downs, Erie, Pa.;

BORAH PROPOSES THREE  
AMENDMENTS FOR DRY VOTE

Idaho Senator Would Include  
Questions With Resolution to  
Test Prohibition

WASHINGTON, March 29.—  
Three amendments to the Edges  
resolution proposing a nationwide  
referendum on prohibition were  
offered today by Senator Borah.  
Each is in the form of a question  
to the voters, which would be  
placed on the ballot. Three ques-  
tions are:

"Do you favor such an amend-  
ment to the constitution of the  
United States that will eliminate  
or wholly repeal the eighteenth  
amendment?"

"If you are in favor of amend-  
ing the Volstead Act so as to permit  
the manufacture and sale of light  
wine and beer, is it your under-  
standing that such light wine and  
beer will be so limited in alcoholic  
content as to be non-intoxicating?"

WOMAN HELD FOR \$30,000 IN BAD CHECKS

Husband, Whom She Deserted Says She Was Tool of Man Arrested.

Special to the Post-Dispatch.  
NEW YORK, March 29.—Mrs. Doris Berne, slim, blond and attractive, was arrested yesterday on a charge of passing bad checks. Her husband, Dr. Louis Berne, in whose arms she collapsed when she was booked at Police Headquarters, is, he said, a plastic surgeon.  
With Mrs. Berne were arrested Paul Rosenthal, the man who, she says, has a mysterious influence over her, and her brother, Elliott Jaffee, 21, who also was accused of passing three Florida bank checks for \$30,000 with bad checks. Her husband, Dr. Louis Berne, in whose arms she collapsed when she was booked at Police Headquarters, is, he said, a plastic surgeon.

MAN NAMED 'MOE' BOUGHT BY POLICE IN MURDER CASE

Known as Companion of James Moody, Ex-Convict, Found Shot to Death in Automobile.

POSSIBLE MOTIVE IN \$80,000 THEFT Victim, Who Had Record of 69 Arrests, Was Free on \$10,000 Bond After Another Robbery.

Police are seeking a man known as "Moe" for questioning in the murder of James Moody, 25 years old, an ex-convict, who was shot to death yesterday at 2525 Marbus avenue. By continuing questioning on a charge of robbing a man and three women, they named that "Moe" was with Moody and others Saturday night and may have been present when Moody met his death.

Moody was under \$10,000 bond for robbery case when he was shot and killed. He had been arrested 69 times and had served terms in the Missouri Reformatory and the Workhouse.

One police theory is that he was shot in the vicinity of two men who were arrested for the theft of a "Kild Glove" Skinner, a safe blower and former associate of Moody.

These attempts followed closely the arrest of a man known as "Moe" in which four safes were looted of \$50,000 in cash, diamonds and jewelry. Moody was arrested as a suspect then, but released.

Phone Call for Police. A telephone call at noon yesterday sent police of the Deer Street Station to the Marcus avenue. They arrived in time to see a Ford roadster speeding away and to overtake it after a block's chase.

On the floor of the car was a man of identical make and age, with two discharged and three other shells.

HOUSE COMMITTEE GETS COMPROMISE FARM RELIEF BILL

Proposal Based on Pending Bills, but Eliminates Government Price-Fixing and Subsidy.

FAVORS LIVESTOCK, WHEAT AND COTTON Corn Not Included—Cooperative Marketing Structure Would Be Financed With \$250,000,000.

WASHINGTON, March 29.—A compromise bill designed to handle the export surplus problem of American agriculture has just been introduced in the House of Representatives by George N. Peek and his associates of the committee of 22 represented in the recent conference held at Des Moines, Ia.

This further removes some of the objections which the administration has to proposals like the McNary-Haughen and the Dickinson bills. It embodies some of the original features of these measures, but does not require the Government to engage in price-fixing or to subsidize agriculture.

The new bill will have the support of members of Congress from the cotton states, and in this way will no doubt bring about a coalition of the West and South.

Corn Not Included. The new bill does not include corn, believing that this phase of the subject should be further studied and that corn will be benefited through the encouragement of a "normal livestock population." The basic commodities taken are wheat, cotton, hogs and cattle.

These are described as "the principal cash crops of American agriculture." The proposal is formally introduced by the American Farm Bureau, the National Farmers' Educational and Co-operative Union of America, the National Board of Farm Organization, the Corn Belt Farm Organization, the American Council of Agriculture, and the North Central States' Agricultural Conference.

These organizations have had their spokesmen before the House Committee on Agriculture for several days and they have responded to suggestions from members of the committee that legislation be agreed upon which will remove some of the objections to the Department of Agriculture and others who do not want the Government to go in for price fixing.

Co-operative Marketing. Under the new plan, the co-operative marketing organizations will be basic structure. They will decide when crops shall be held or sold and just when the Federal Farm Board shall put into operation each phase of the scheme. The control rests with the farmers themselves.

REFUSES POLICE AID AFTER TAKING POISON

Woman Living at Hotel Becomes Hysterical at Sight of Patrol Wagon.

Although in serious condition from poison taken by mistake, Mrs. Alice Jones, 29 years old, refused to enter a police patrol which was sent last night to the Lindell Plaza Hotel, 4300 Lindell boulevard, to remove her to city hospital.

Police were at a loss what to do, when Mrs. Jones' husband, Henry, arrived in his automobile and took her to Josephine Hospital, 1330 South Grand boulevard, where first-aid measures were taken. Physicians say she will recover.

Mrs. Jones said she had mistaken poison tablets for headache pills. Another of the arrested men, but none being available, the Newstead Avenue District police were asked to send a patrol. When Mrs. Jones saw the vehicle, she became hysterical.

IDENTIFIES TWO OF THREE MEN HELD AS STORE ROBBERS

Grocer Lost \$225 in Holdup: One Prior Reported Known Under Another Name.

Two of three men who were arrested Saturday night in a stolen Chevrolet car, at Twentieth street and St. Louis avenue, have been identified since as the men who robbed a grocery at 1427 Benton street of \$225, the night of March 20.

One of the prisoners, who says he is Louis Thomason, 26 years old, of 1115 Branch street, was known to the storekeeper, who was identified since as the men who robbed a grocery at 1427 Benton street of \$225, the night of March 20.

MRS. HEDWIG B. MOLL, WIDOW OF GROCER, SUCCUMBS AT 83

Dies Following 14 Years of Invalidism: Funeral Wednesday at Residence.

Mrs. Hedwig Ballaseaux Moll, widow of Adolph Moll, founder of the A. Moll Grocery Co., died today at her residence, 4530 Pershing avenue. She was 83 years old and had been an invalid for 14 years, succumbing to the infirmities of age in the house in which she had lived 35 years.

Mrs. Moll was born in Marien Werden, North Prussia, Nov. 26, 1846, and as a girl came to St. Louis by way of New Orleans, in 1869. She was married in 1861 to Mr. Moll, who died in 1893, at the age of 64. Thirteen children were born to the union, but five died in infancy. A son, Paul, died in 1902. She is survived by seven children, grandchildren and eight great-grandchildren.

The children are: Mrs. Anna Adler, 4961 West Pine boulevard; Mrs. Hady Gerner, Los Angeles, Cal.; Mrs. Lucy Newhaus, Berlin, Germany; Adolph A. Moll, San Francisco; Kurt V. Moll, 5625 Washington avenue; Mrs. Ralph Cave, 4554 Pershing avenue; and Wilbert E. Moll, who lived with his mother. A brother, Adolph Ballaseaux, resides in Los Angeles.

The funeral will be at 10:30 a. m. Wednesday from the residence, with the Rev. John W. MacFay, pastor of the Second Presbyterian Church, officiating. Interment in Bellefontaine Cemetery.

WOMAN'S WOULD-BE AVENGER SLASHED ON LEG BY NEGRO

Wilford Rozier Accompanied John Golde to Find Man Who Insulted Later's Wife.

A Negro made an insulting remark to Mrs. Eva Golde, 1318A Allen street, yesterday, as she passed an alley on Fourteenth street between Pine and Olive streets. She reported the fact to her husband, John, who returned to the vicinity with her and a friend, Wilford Rozier, 27.

Mrs. Golde pointed out a Negro on Fourteenth street and the men pursued and captured him at Sixteenth and Pine streets, where they knocked him down and were holding him while Mrs. Golde searched for a policeman.

Two other Negroes, happening along, went to the assistance of the third, pulling off Golde and Rozier. The Negro they had been holding drew a knife and stabbed Rozier in the left thigh. All three Negroes escaped.

BODY OF GIRL FOUND IN ROAD AT PEKIN, ILL.

Police Think That Unidentified Victim Was Hurled From an Auto.

By the Associated Press.  
PEORIA, Ill., March 29.—Authorities today were endeavoring to penetrate the mystery surrounding the death of an unidentified girl, whose body was found along a road two miles south of Pekin yesterday. A police theory that she had been struck by an automobile has been abandoned. Police now think she was hurled from an automobile to her death.

The only clue to her identity is a small pasteboard packing box addressed to "Miss Maria Sh—", the remainder of the name being torn off the label.

Examination shows that the girl's jugular vein and windpipe were broken, but there were no external marks of violence. It has been established that the girl attended a dance in Pekin on Saturday night. Policeman John Jansen related that he saw four persons in a small automobile at 3 a. m. Sunday driving toward the road where the body was found. The occupants were quarreling, he said.

PRIEST TO SEE THAT CHAPMAN IS GIVEN DECENT BURIAL

Says He Will Claim Slayer's Body to Prevent It From Being Given to Yale Medical School.

By the Associated Press.  
WETHERSFIELD, Conn., March 29.—The one man who has been closest to Gerald Chapman during the year he has been held in the State prison here awaiting execution for murder will claim the body of the notorious criminal in event of hanging, if it is unclaimed by others.

The Rev. M. P. Barry, rector of the Sacred Heart Church and prison chaplain, who has been the only spiritual adviser the condemned robber has seen, has declared that Chapman's body never would go to Yale medical school for dissection purposes.

When Chapman was brought here a year ago he was known to have been an agnostic.

NEW HAVEN, Conn., March 29.—Federal Judge Thomas this afternoon denied a petition of counsel for a writ of habeas corpus for Gerald Chapman. The Court said there was "nothing new in the petition."

COUNTESS WITHDRAWS 'ASHES'

THE REV. DR. JONES' FAREWELL TO HIS FLOCK IN ATLANTA, GA.

Negroes Join in Tribute to Pastor Who Will Depart Friday for St. Louis.

By the Associated Press.  
ATLANTA, Ga., March 29.—The Rev. Dr. M. Ashby Jones, pastor of the Ponce de Leon Baptist Church here for the past eight years, preached his farewell sermon last night and on Friday will depart for St. Louis, where he will assume the pastorate of the Second Baptist Church.

During the afternoon, Dr. and Mrs. Jones were honored by more than 500 Negroes at Big Bethel Church when he was presented with a silver pitcher. The meeting was called by Negro leaders to pay tribute to the work of Dr. and Mrs. Jones in behalf of their race.

Responding, Dr. Jones expressed his appreciation of the tribute, his confidence in humanity and his appreciation for the Negro race. "You have justified my faith," he said, "and proved the truth of my gospel."

EX-MAILMAN KILLED AS HE LAY ON TRACKS

Joseph F. O'Laughlin 'Ho Be Buried Here After Monroe (Mo.) Tragedy.

The body of Joseph F. O'Laughlin, former St. Louis mail carrier, who was killed by a freight train at Monroe, Mo., early Saturday, was returned to St. Louis for burial yesterday after Coroner C. R. Scott of Hannibal had returned a verdict of suicide.

The body was found between the rails after a freight train had passed. It was nude and O'Laughlin's clothing was found piled beside the right of way.

A crew on another train which passed two hours before the body was found, told of seeing a man lying on the track in front of their locomotive. When the engineer blew his whistle the man fled into woods nearby. Apparently it was a later train that killed him.

O'Laughlin was 30 years old. He lived with his mother, Mrs. Patrick O'Laughlin, at 1619A Hammond avenue. He left home several days ago without saying where he was going.

\$20,000 MORE CLAIMED BY ATTORNEYS IN TENTOR CASE

Lawyers for Trustee in Bankruptcy Proceedings Previously Allowed \$17,500 in Fees.

A claim for \$20,000 additional attorneys' fees in the bankruptcy of the Tentor Fruits Products Co. was made to Referee Coles today by the firm of Jones, Hocker, Sullivan & Angert, attorneys for the trustee, through Frank H. Sullivan. Previously attorneys' fees of \$17,500 have been allowed the same firm.

Sullivan said today that the industry of the attorneys had resulted in recovery of approximately \$250,000 that otherwise might have been lost.

An additional \$1900 also was claimed for the estate, L. F. Schaffner, who previously has received \$16,000. It was submitted that an error in this sum was made in the calculation of the fee fixed by law. Referee Coles indicated that both sums would be allowed.

The Tentor company went into bankruptcy in March, 1922, with liabilities of \$2,500,000 upon which creditors have been paid \$1,800,000.

## "BIG TIM" MURPHY AT A COMING-OUT PARTY

One of "Gas House" Boys Welcoming Ex-Convict Hits Kansas City Merchant.

Special to the Post-Dispatch.  
KANSAS CITY, March 29.—"Big Tim" Murphy, leader of the Chicago Gas House gang, saw Kansas City's bright lights Saturday night. He went to the cabaret with the "boys" and the party did not break up until daybreak Sunday, and then only after a prominent merchant had "busted in" on Tim's party and received a "bust on the beeper" for his troubles.

Riley and Powers, from several others of the "boys" from Chicago came to town late Saturday to escort their idol, fresh from completing a term in the penitentiary in Leavenworth, to his old hang-out. "He's got a cool million," boasted one of the party, speaking of "Big Tim." "Your raiding squad won't bother this party." And by mere coincidence the police did not bother it, although they put an abrupt end to a party in a cabaret less than 100 feet away.

"Big Tim's" party was a live one. All the prominent bootleggers were there, but there were no women. "Hail, Hail, the Gang's All Here," blared the orchestra as Tim and his followers entered the cabaret. There were half a dozen persons in the party when it was organized. But it grew. Everybody wanted an introduction to Murphy. At first the party occupied a small table in the rear of the cabaret; presently the number of guests became so large the biggest table in the place was pressed into use.

Many "sat in" just long enough to meet Murphy and buy a drink for the crowd—the price of an introduction. And that is how the prominent merchant received his "bust on the beeper." A remark "tricked one of the boys" and as a result the prominent merchant is showing a beautiful "shanty."

By the Associated Press.  
CHICAGO, March 29.—"Big Tim" Murphy today arrived unheralded from Leavenworth prison at the station, where in 1927, a \$182,000 mail robbery occurred, the conspiracy in which he was convicted.

**MAN HURT IN SAVING CHILD OF HIS BROTHER FROM FIRE**  
Michael Chuchian Had First Carried Three Children of Own to Place of Safety.

Michael Chuchian, 35 years old, a shoemaker, was slightly injured in rescuing the 3-month-old son of his brother, Jacob, 34, in a fire at a home today in their home at 4159 Westminster place.

The older Chuchian, who lives with his wife and three children on the first floor of the three-story brick building, was aroused from sleep by his wife who had seen smoke filtering through the ceiling of their bedroom. After carrying his own children aged 4, 2 and 9 months, to safety in the house of a neighbor, he awakened his brother who, with his wife and three children, was still asleep in a smoke-filled room on the second floor. In attempting to carry his youngest nephew down the stairs he was temporarily blinded by smoke, and fell, lacerating his forehead and knees. He reached the street and there fell unconscious. He was revived within 45 minutes. The child was unhurt. Damage was estimated at \$300. Origin of the fire was not determined.

**\$500 Fire in Movie Theater.**  
An electric spark ignited a motion picture film in the projection room of the Majestic Theater, 1022 Franklin avenue, at 3:30 p. m., yesterday causing about \$500 damage. The blaze was confined to the room and the audience, consisting largely of children, left the theater without confusion. The fire was extinguished before an engine company arrived.

## PRIEST AT CAPITAL ASSAULTS MEXICAN ENVOY'S DEFENSE

His Assertion That Ambassador Took Liberties With the Truth. Revives Discussion.

WASHINGTON, March 29.—A new chapter in the controversy over religious schools in Mexico led to the revival of discussion of the subject today among members of the diplomatic corps and others in Washington.

The author of the latest contribution to the dispute is the Rev. John Callaghan, who yesterday told a Palm Sunday congregation at St. Matthew's Roman Catholic church here that Mexican Ambassador Telles has taken "rare liberty with the truth" in his recent defense of the Mexican deportations of religious leaders. Among those who attended the service were several officials of foreign diplomatic missions here.

"Mr. Telles takes rare liberty with the truth when he talks about political activities of the Catholic church," said Father Callaghan. "His assertions may be categorically denied. The Mexican clergy have taken an honorable part in the public life of their country."

"Let the crew of evangelical proselytizers in Callaghan's cabinet-salaried clergymen formerly, and may be now—on the payrolls of organizations in this country get out of the politics in Mexico before Mr. Telles pressures to tell us anything about the Catholic church in politics."

## CHANGES IN PRIESTS MADE IN BELLEVILLE DIOCESE

The Right Rev. Henry Althoff Announces Transfers to Be Effective April 15.

The Right Rev. Henry Althoff, Bishop of the Catholic diocese of Belleville, announces the following changes of priests throughout that diocese:

The Right Rev. Mgr. Joseph Kaup of Mascoutah is transferred to the pastorate of St. Dominic's Church at Breesa; the Rev. Father Gillen of Cairo to Aviston; the Rev. Father Brumlinger of Aviston will retire from active pastorate work; the Rev. Father Wehrich of Okawville is transferred to Mascoutah; the Rev. Father Dahms of Breesa to Okawville and Nashville; the Rev. Father Tansig of Dahlgren to Cairo; the Rev. Father Lehman of Springfield is transferred to Chester; the Rev. Father Sporns of Madonnville becomes pastor of Springfield; the Rev. Father Mueller, assistant pastor of the Cathedral at Belleville, goes to St. Ignace Hill, East St. Louis; the Rev. Father Goez of Cairo is appointed pastor at Dahlgren and McLeansboro; the Rev. Father Weiskamp of Evansville is transferred to Madonnville; the Rev. Father Harbaugh of East St. Louis becomes assistant to the Right Rev. Mgr. Schlarman at the Belleville Cathedral; the Rev. Father Loepker of Aviston is made assistant pastor to the Rev. Father Gilmartin at Sacred Heart Church, East St. Louis. These changes become effective April 15.

## MAN, 86, SUES FOR DIVORCE

He Alleges Wife Now, 82, Left Him 40 Years Ago.

By the Associated Press.  
OTTAWA, O., March 23.—Michael J. Burrows, 86 years old of Dupont, near here, has filed suit for divorce against Sarah E. Burrows, 82. They were married 62 years ago, but have been separated 40 years. Seven children were reared by them.

Burrows charged gross neglect. After 22 years of wedded life, he said, his wife left him to live with a daughter in Douglas County, Oregon, and refused to return.

## Acquitted of Arson Charge.

By the Associated Press.  
KANSAS CITY, March 23.—Benny Portman, drugstore owner, was acquitted on a charge of third-degree arson by a jury. He was tried on charges growing out of the burning of a drugstore owned by him in February, 1923. He was indicted last year with Harry J. Monroe and Frank Ray in connection with the fire. Mack McKaig, a Chicago gangster, who was alleged to have been employed by Portman to set fire to the place, lost his life in the fire. Monroe, who was manager of a hotel here at the time of the fire, and was indicted with Portman, became a witness for the State and succeeded in getting the charge against him dismissed.

## Stop that Cold

do it now—do it well

When a cold starts, stop it quickly. The earlier you start, the sooner the cold will end. And all the results end with it.

HILL'S stops a cold in 24 hours. It also opens bowels, ends the discomforts, tones the entire system.

It is the best way known today. So efficient that millions have come to employ it. So superior to other methods that we paid \$1,000,000 for it.

Begin these tablets at once, and watch how quickly all the colds end. You will be surprised and delighted. At your drug store.

WHAT is meant by a smart-looking Suit? Just this... one that is above all manly... broad, athletic shoulders... compact hips and slight body-tracing waistline... trousers roomy without being baggy... and falling straight from the hips.

☞ This is a very poor word picture of our new Spring Suits... their appearance as a whole is athletic, vigorous, buoyant, manly, comfortable... and they give these impressions regardless of the physical proportions of the wearer.

☞ Fine fabrics are in wide variety... many of them imported... all selected for their smart patterns and colors.

☞ Single-breasted models with two buttons... double-breasted models... single-breasted three-button models in sizes to fit any man.

Look into a WHIRLPOOL Washer—in action—as the clothes go 'round and 'round. Note how they are ALSO turning over and over. See how the clothes on top keep disappearing—tumbled under the sudsy water by the WHIRLPOOL Circulator.

It TUMBLES the clothes  
as it CIRCULATES them

Just as the great whirlpool at Niagara draws objects under, swirls them 'round and to the surface again—so the WHIRLPOOL does with your clothes. This constant, complete circulation and immersion is the secret of the WHIRLPOOL'S faster, cleaner washing. Time the WHIRLPOOL. We will prove that it washes clean in five minutes.

### KANSAS CITY STAR PROFITS FOR ART UNDER PURCHASE PLAN

Haldeman-Julius, Publisher, Who Bid \$8,000,000 for Paper, Mails Proposal to Trustees.

Special to the Post-Dispatch.

CHICAGO, Kan., March 29.—To preserve the Kansas City Star, now in charge of three trustees under the will of its founder, W. R. Nelson, E. Haldeman-Julius, widely known publisher of this city, has in the mail today a proposal to the trustees in connection with his recent bid of \$8,000,000 for the property.

The publisher of classics and fiction declared he believed that the newspaper should not be dependent upon the life of any person or persons.

He would, according to the plan he said he was going to submit, form a corporation which would issue first mortgage serial bonds at the lowest rate obtainable on the property for 40 per cent of the purchase price; preferred 7 per cent cumulative stock equal to 30 per cent of the purchase price, and common stock for 30 per cent. He would have the trustees selected at the hands of a board of directors of the new corporation by a majority vote of stockholders.

The will of Mr. Nelson provided that the Star should be sold for the best price obtainable within two years. The proceeds of the sale are to be devoted to an art foundation for Kansas City. Haldeman-Julius would set aside the profits of the newspaper—devoted to the interests of Kansas City and the entire Southwest—continually striving to add to the art foundation.

The trustees of the property, appointed by the presidents of the Universities of Missouri, Kansas and Oklahoma, are in the East conferring with newspaper publishers with a view to finding the value of the property before taking action on any bid.

### GOV. BAKER APPOINTS NEW CLAY COUNTY PROSECUTOR

Robert T. Stephens Forty-Sixth County Officer Chosen by State Executive.

Special to the Post-Dispatch.

JEFFERSON CITY, March 29.—Gov. Baker today appointed R. T. Stephens, Republican, of Excelsior Springs as Prosecuting Attorney of Clay County, to succeed Raymond W. Cummins, Democrat, of Liberty, who resigned following his conviction in Clay County Circuit Court on charges of failure to account for fees of his office due the county. Cummins' resignation was received by the Governor this morning.

This was the forty-sixth appointment of a county officer by Baker in the 14½ months he has been Governor. Distribution of the unusually large amount of county patronage has fallen to the Governor through deaths or resignations of county officers. With two or three exceptions, Republicans have been appointed to the vacancies, regardless of the party affiliations of the former officeholders.

In several instances the first notice received by Gov. Baker of the death of a county officer was through letters and telegrams applying for the vacant office.

ILLINOIS RIVER APPROPRIATION \$1,350,000 Proposed by Army Engineers.

WASHINGTON, March 29.—Expenditure of \$1,350,000 for a nine-foot channel in the Illinois River, based temporarily on the present diversion from Lake Michigan of 3250 cubic feet a second of water was recommended by army engineers in a report sent to the House today.

The report made plain that it did not permanently recommend this diversion, as allowed by War Department permits of March 3, 1925. Commerce on the great lakes is far greater than that to be expected on the Illinois River, it continued, adding that the cost of the project would be increased as the diversion was decreased.

A channel width of 200 feet was specified with an estimate of \$115,000 annually for maintenance.

### Getting Skinnier Every Day

Something Must Be Done and Done Right Now—Quick

Tens of thousands of thin, run-down men—yes, and women, too—are getting discouraged—are giving up all hope of ever being able to take on flesh and look healthy and strong.

All such people can stop worrying and start to smile and enjoy life right now, for McCoy's Cod Liver Oil Compound Tablets, which a druggist will tell you all about, are putting flesh on hosts of skinny folks every day.

One woman, tired, weak and discouraged, put on 15 pounds in five weeks and now feels fine.

We all know that Cod Liver Oil is full of vitalizing, flesh producing vitamins but many people don't take it because of its horrible smell and fishy taste and because it often upsets the stomach.

McCoy's Cod Liver Oil Compound Tablets are as easy to take as candy and if any thin person don't gain at least 5 pounds in 30 days your druggist is authorized to give you your money back—and only 20 cents for 60 tablets. Ask Wolff-Weber Drug Stores, Kessler Drug Co., or any live pharmacist anywhere.

But be sure to get McCoy's, the original and genuine, and not that cheap, thin, sticky kids that are wonderful—thin, sticky—age 9, gained 15 pounds in 2 months.

### FREED FROM THE PHYSIC HABIT

Says Milk's Emulsion ended her constipation and stomach trouble.

"I had stomach trouble and constipation very bad for a long time. Tried everything, but kept getting worse. I could hardly eat anything, and my bowels wouldn't move unless I took a physic every day. I have to support myself and two children, yet I couldn't work."

"The first bottle of Milk's Emulsion did wonders for me, and I have continued its use until now I feel fine and can work every day. I have a good appetite, my stomach trouble has left me, and my bowels are as regular as clock work."—Mrs. Mary Widner, 109 S. Court St., Sioux City, Iowa.

Milk's Emulsion restores healthy, natural bowel action, doing away with all need of pills and physics. It promotes appetite and quickly puts the digestive organs in shape to assimilate food, thus building flesh and strength, which are Nature's only aids in conquering germs and repairing the effects of wasting diseases.

This is the only solid emulsion made, and so palatable that it is eaten with a spoon like ice cream. Wonderful for weak, sickly children. No matter how severe your case, you are urged to try Milk's Emulsion. If not satisfied with results, your money will be promptly refunded. Price 60c and \$1.20 per bottle. Sold by druggists everywhere.

# FOR Acid Stomach PHILLIPS' Milk of Magnesia

Instead of soda hereafter take a little "Phillips' Milk of Magnesia" in water any time for indigestion or sour, acid, gassy stomach, and relief will come instantly.

## BETTER THAN SODA

For fifty years genuine "Phillips' Milk of Magnesia" has been prescribed by physicians because it overcomes three times as much acid in the stomach as a saturated solu-

tion of bicarbonate of soda, leaving the stomach sweet and free from all gases. Besides, it neutralizes acid fermentations in the bowels and gently urges this souring waste from the system without purging. It is far more pleasant to take than soda.

## ST. LOUIS MILITIA TO TRAIN AT NEVADA

Decision Is Reached After Discussion of Plan to Send Units to Fort Riley, Kan.

The annual encampment of the 138th Infantry, St. Louis National Guard Regiment, will again be at Nevada, Mo., Aug. 8 to 22. It was announced yesterday, following a meeting of the Military Council, headed by Gen. W. A. Raupp, commanding State troops, at the Armory, Grand boulevard and Market street.

The meeting included a discussion of the War Department proposal to train the 110th Observation Squadron, St. Louis, and the Thirty-fifth Division Tank Co., St. Joseph, at Little Rock, Ark., and Fort Riley, Kan., respectively. The Council voted against training these organizations outside the State and instructed Adjutant-General Rumbold to request that the two special organizations be allowed to train at the regular State encampment.

The encampment dates for all State troops have been fixed as follows: 138th Infantry, St. Louis; 140th Infantry, Southeast Missouri; 110th Engineers, Kansas City; Thirty-fifth Division Headquarters Co., Seventeenth Infantry Brigade Headquarters Co., Thirty-fifth Division Tank Co., and the 110th Observation Squadron, at Nevada, Aug. 8 to 22.

While Nevada is designated as the training place for the tank company and air squadron, it is within the power of the War Department to order these organizations to Fort Riley and Little Rock.

The 128th Field Artillery will encamp at Fort Riley July 18 to 31, and the 203d Anti-Aircraft Company will train at Fort Sill, Ok., July 6 to 20.

Officers' Schools. It was also announced following the meeting that officers' schools will be held on four days during June as follows: 138th Infantry, at St. Louis; 140th Infantry, at Cape Girardeau; 110th Engineers, field work in Camden County; 128th Field Artillery, at Booneville, and the 203d Anti-Aircraft Co., at Aurora. Suggestions for the training of troops at the general encampment will be included in the program of the officers' schools.

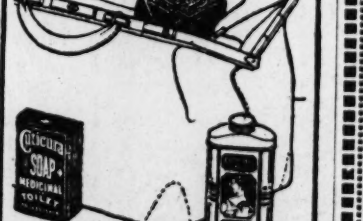

Members of the Military Council attending the conference yesterday were: Gen. W. A. Raupp, State commander; Adjutant-General F. M. Rumbold; Col. S. E. Lowe, 138th Infantry; Col. G. W. Phillips, 140th Infantry; Col. E. M. Stuyven, 110th Engineers; Col. T. H. Loy, 203d Anti-Aircraft Co.; Col. J. F. Williams, 128th Field Artillery, was unable to attend.

## ADVERTISEMENT QUICK RELIEF FROM CONSTIPATION

Get Dr. Edwards Olive Tablets

That is the joyful cry of thousands since Dr. Edwards produced Olive Tablets, the substitute for calomel.

Dr. Edwards, a practicing physician for 17 years and calomel's old-time enemy, discovered the formula for Olive Tablets while treating patients for chronic constipation and torpid livers.

Dr. Edwards' Olive Tablets do not contain calomel, but a healing, soothing vegetable laxative.

No griping is the "keynote" of these little sugar-coated, olive-colored tablets. They cause the bowels and liver to act normally. They never force them to unnatural action.

If you have a "dark brown mouth"—bad breath, a dull, tired feeling—sick headache—torpid liver—constipation, you'll find quick, sure and pleasant results from one or two of Dr. Edwards' Olive Tablets at bedtime.

Thousands take them every night just to keep right. Try them. 15c and 50c.

### "GET" COLDS QUICK! DON'T WAIT FOR CHILLS

When you feel a cold beginning, take hot lemonade. Then go straight to bed, under warm covers.

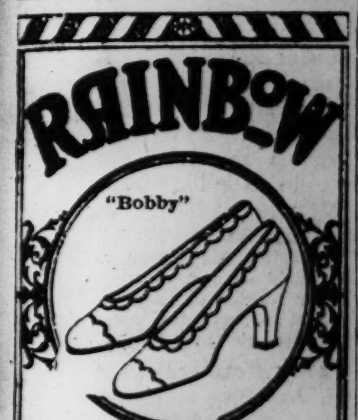

You'll perspire, but in nine cases out of ten the cold will go. In the morning there won't be a trace.

Millions profit in untold ways by this measure of prevention.

If you are sneezing, if you ache, take hot lemonade tonight, and cheat the cold. It's the cheapest, simplest, surest, safest way.

Just squeeze the juice of a California lemon in glass or cup of hot water. The effectiveness of hot lemonade is due to more than its heat. Add sugar if you wish.

Ask for California lemons, the tart, juicy, practically seedless kind. They make the most effective remedy for colds.

BANK RESERVES TAXABLE  
AT FULL VALUE, GENTRY HOLDS

Attorney-General Gives Opinion in Protest of Depositories in St. Louis County.  
Special to the Post-Dispatch.  
JEFFERSON CITY, March 29.—All reserve funds of a bank, including any reserve set aside for taxes and interest payments, are subject to assessment for taxation at their full money value, Attorney-General Gentry today informed the State Board of Equalization in a protest over assessment of reserves of banks in St. Louis County.

The question was raised when the State Tax Commissioner recommended to the Board of Equalization that \$89,201 be added to the assessment of banks in St. Louis County. This amount represented taxes or interest, should be included in assessments for taxation, or a specific exemption would have been included in the law. No such exemption is provided in the law, he stated.

Protests against full-value assessment of the capital stock, surplus, undivided profits and reserves of banks at the full money value have been made before the Board of Equalization each year for several years. Several delegations of bankers have appeared before the Tax Commissioner or the board this year on various phases of the assessments. They have contended that the full-value assessment of this property of the banks was discriminatory in view of the fractional assessments made on other classes of property.

In theory, all Missouri assessments are at full value, but in practice most of them are on a fractional basis. It was contended that assessment of some property in the State was as low as 25 per cent of its actual value, while the surplus, capital, undivided profits and reserves of banks always are assessed at their full value in money.

JURY SENT HOME OVER  
SUNDAY FAILS TO AGREE

Within One Vote of Verdict Saturday, Members Today Found Themselves Further Apart.  
A jury in Circuit Judge Miller's court today failed to agree in the \$50,000 damage suit of Mrs. Clementine Rosenzweig of Chattanooga, Tenn., against the United Railways and was discharged.

The jury deliberated for three hours Saturday and reported itself 8 to 4 one vote within agreement in a civil action. In the hope that further consideration would result in a verdict, Judge Miller sent the jury home over Sunday, an unusual procedure. It returned today and after several hours reported itself further apart than before—7 to 5. It was understood that this majority was in favor of the railways.

Mrs. Rosenzweig declared that the door of a car at Kingshighway and Delmar boulevard, was opened before the car came to a stop and that when it did stop it was with a jerk that threw her into the street. The company declared that the door was not opened until the car had stopped. A previous trial resulted in a verdict of \$10,000 for Mrs. Rosenzweig, which was set aside by the Supreme Court.

W. J. LEMP COUNTRY ESTATE  
BOUGHT BY BANK FOR \$90,000

Mercantile Trust Acquires 14-Room Structure and 192 Acres at Public Sale.  
The country residence and 192-acre estate of the late William J. Lemp, on Kennerly road, in St. Louis County, was sold to the Mercantile Trust Co. today for \$90,000, at a public sale in Clayton.

The residence, a 14-room structure in a highly ornamental Swiss chalet style, overlooks the Meramec River from bluffs 200 feet high. It was built in 1914 at a cost of \$125,000.

Lemp, who was president of the William J. Lemp Brewery Co., killed himself in 1922. The country estate was sold twice before in the liquidation of the estate, but the previous sales were set aside for various reasons.

POLICEMAN STABBED IN FIGHT

Three Negroes Arrested After Row at Columbia, Mo.  
By the Associated Press.  
COLUMBIA, Mo., March 29.—Three Negroes are in jail here and one other is being sought in connection with what authorities believe was a conspiracy to kill James B. Mitchell, Police Sergeant, early yesterday.

Mitchell is a hospital suffering from severe knife wounds said to have been inflicted by Lewis Newson, who escaped after he and five other Negroes had attacked the office in a side street. Mitchell probably will recover. Mitchell was summoned to arrest Newson and when he arrived on the scene five other Negroes appeared.

DOCTOR REPORTS DISCOVERY  
OF ANTITOXIN FOR MEASLES

Dr. N. S. Ferry and L. W. Fisher, Chemist, Both of Detroit, Tell of Their Experiments.  
NEW YORK, March 29.—Discovery of a measles toxin and development of an anti-toxin effective in combating the disease is claimed by Dr. N. S. Ferry and L. W. Fisher, a chemist, both of Detroit, in the current issue of the Journal of the American Medical Association.

Detailing their experiments, they tell of the isolation of a micro-organism, "a small streptococcus appearing both in pairs and in turn, which produces the measles toxin in the body. They named the organism 'streptococcus mobilis'."

A skin test, by which they checked their discovery, led to the finding of the anti-toxin. "Animals injected with the measles toxin will produce serum with anti-toxic properties," their article says. "Showing the toxin is a true extracellular or soluble toxin."

The Journal of the American

Medical Association says the Detroit scientists and other investigators of streptococcal toxin now are seeking to isolate such a toxin in cases of erysipelas and child-bed fever.

"The EASY means more to me than anything I ever bought"

TALK to any woman who owns an Easy Washer and see if she doesn't tell you it means more to her than anything she ever bought.

Ask her why and she'll mention the joy of being free from tired muscles, aching joints and reddened hands on washday. She'll tell you what a pleasure it is to have an unlimited supply of clean clothes always—at so little expense of time and labor.

A time-honored washing method She'll take pleasure in telling about the Easy's Vacuum Cup method of washing, a method that embodies the same time-honored principle grandmother used when she washed with a funnel-on-a-stick. This principle consists of flushing air, soap and water through the fabric by means of air pressure and suction. As employed in the Easy, it is the only washing method that gets all the clothes clean yet handles fine dainty things more gently than human hands.

Made like a fine car If you are interested, you will hear many other good points about the Easy Washer. Every single detail of the Easy is made as carefully as the finest automobile. The result is a precise, smooth-running machine that lasts for years and doesn't get out of order easily.

The solid copper tub of the Easy holds ten single sheets. It is no trouble at all to keep clean and sanitary—a flip of the cloth does the trick. Beneath the tub a simple and convenient gas heater keeps the water at an even temperature all through the washing.

Easy to operate There's no hard labor to washing with the Easy. The machine is as simple to operate as a vacuum cleaner. To start the washer you press a button. To start the wringer, you move a lever.

You don't even have to put on an old dress to wash with the Easy. It makes no fuss or muss. There is no noise or vibration. Everything is inclosed.

You can't afford to be without this remarkable servant. A small deposit and all its benefits are yours. The balance you can pay monthly as you use the machine, in amounts that you will scarcely feel at all.

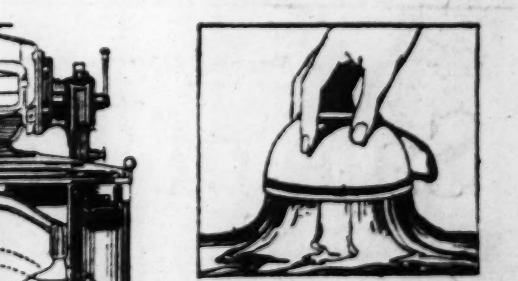

Why not try out the Easy in your own home and see what it is like? It won't cost you a cent or obligate you in any way. We will gladly send the Easy and a demonstrator to your home on your regular washday and do a week's washing free. Write us at once for an appointment or phone any Easy dealer.

You know how a teacup pushed down into water forces air into that water. Raise the cup, and the suction causes both air and water to follow. The same principle is used in the Easy Washer. Like human hands the Vacuum Cups press down, flushing air, soap and water through the clothes and back again. This happens 60 times a minute—without water on the clothes, but overlappingly taking the dirt out of them.

### SENATE INQUIRY INTO MEXICAN GRANT SOUGHT

Hiram Johnson Wants Foreign Relations Committee to Learn Facts About Magdalena Bay.

### MEXICAN-JAPANESE CONCERN INVOLVED

Sen Long Has Been Regarded as Important Naval Base—State Department Without Information.

By the Associated Press.

WASHINGTON, March 29.—The Senate Foreign Relations Committee was asked today by Senator Johnson (Rep.) of California, to inquire into the land grant on Magdalena Bay, Lower California, recently given by the Mexican Government to a Mexican-Japanese syndicate.

Senator Johnson's request was submitted to Chairman Borah, who said he too wanted all the facts. Senator Borah previously had taken the matter up with the State Department, which as a result is expected to make inquiries as to the nature of the transaction. Thus far neither the department nor Borah has any information except that contained in a newspaper dispatch from San Diego, saying the syndicate proposed to produce vegetable dyes and rubber. The land involved long has been regarded as an immensely valuable naval base.

Any report that the Mexican Government had granted a concession to Japanese in Lower California was said by Mexican Ambassador Teller today to be "perfectly absurd."

By CHARLES MICHELSON, Staff Correspondent of the Post-Dispatch and New York World.

WASHINGTON, March 29.—Magdalena Bay, which caused so much commotion in this country 14 years ago, when there was a movement for the establishment of a Japanese colony in Lower California, under the guise of a mining concession, threatens to become a live issue again.

The Associated Press carries a news item that the Mexican Government has granted a strip of land 190 miles long and 40 miles wide, on Lower California Peninsula, to Col. Vayquez of the Mexican army and a Japanese syndicate headed by Dr. Osaw of San Pedro, Cal. The announced purpose is the production of rubber and vegetable dyes.

The State Department is awaiting further information before making any comment on the matter.

Chairman Borah of the Senate Foreign Relations Committee is much interested and said last night that if it develops that there is a colonization scheme in connection with the tremendous lease—about 2,500,000 acres—he will call the Foreign Relations Committee together to look into it.

The new Mexican land law prohibits the ownership of land by foreigners along the sea coast or near the borders, except by express permit from the President of Mexico. The inference, due to the presence of a Mexican army officer in the business and the definite announcement that the concession has been granted, is that President Calles has agreed to the exploitation of the vast tract.

History of Former Trouble. The former trouble over Magdalena Bay resulted in a declaration that this country would view with grave concern "the actual or potential possession of a harbor or any other place" by any government not American, where the possession of such place might threaten the communications or safety of the United States.

In that case all that was sought was the privilege of selling to a Japanese syndicate, a 15 per cent interest in a concession held by an American. The State Department answered a request for its attitude on the matter that "such a transfer would be quite certain to be interpreted in some quarters in a manner to cause a great outcry, and that such a result would be so obviously a cause of regret to the Government of the United States that it would appear unnecessary further to comment upon the disposition of the Federal Government in the premises."

The Japanese Government apparently had informed our Government that it had no interest in the transaction directly or indirectly, but Senator Lodge pointed out in the Senate debate that it "would make very little difference from a strategic view whether the coal station was established by the Government or by a Japanese company which the Japanese Government could use if it chose.

## LEGAL STANDING OF FLEXIBLE TARIFF UNDER QUESTION

Test Cases in Court as Special Senate Committee Investigates Conduct of Federal Commission.

Special to the Post-Dispatch.  
WASHINGTON, March 29.—Regardless of whether the inquiry into acts of the tariff commission under the flexible provisions before a special Senate committee is appraised finally as a constructive effort or a political fishing expedition, both business men and politicians appear agreed that the investigation focuses attention on the constitutionality of this experiment in tariff rate adjustment.

The Senate Committee last week laid an historical background for its work by having before it the two men who served as chairman of the commission from its original until shortly prior to enactment of the 1922 tariff law with its inauguration of flexibility in rates to be charged on imports at the customs ports.

What will come later before the committee may be expected to cover a wide range. Not only business men but every element of the population has concern in the tariff. Despite this concern in fact, it is apparent that the flexible tariff is little understood, even in quarters where a strong interest leads to rather close study of tariff legislation.

**Question of Taxing Power.**  
Avoiding controversial phases of the subject, the fact is that the present tariff act will bring something like \$560,000,000 into the Federal Treasury during the current fiscal year. Not only does it break all records for such receipts—a sum nearly 50 per cent greater than all the tax reductions which will come in a year from the 1922 revenue act. And despite this, the tariff is 40 per cent of all merchandise imports and of duty.

When Congress in 1922 included in the tariff act the so-called flexible provisions, which empower the President, upon investigation by the Tariff Commission, to raise or lower duties within a range of 50 per cent of the figures named in the law, doubts of the constitutionality of such provisions were voiced on the floor of both the Senate and the House, on the ground that the tariff is a tax and that under the Constitution taxing is vested in Congress alone, and cannot be delegated.

**Test Cases Now in Courts.**  
While the Senate is investigating what the commission has and has not done under the flexible sections, there are four cases under way to test the constitutional question. Three are pending before the Board of General Appraisers, while one case already is on the docket of the Supreme Court in which an

ing the Monroe Doctrine, which was the basis of the action in the Sixty-second Congress, the Western Senators are bound to be concerned greatly over the establishment of a great Japanese enterprise, which may involve the presence of a large Japanese population, just south of the California border. They have been exercised at the filtration of Japanese immigrants across the border.

The circumstance that at the time Americans have flexible sections, there are four cases under way to test the constitutional question. Three are pending before the Board of General Appraisers, while one case already is on the docket of the Supreme Court in which an

**WORKERS TO VISIT RUSSIA**  
W. Z. Foster, in Moscow, Says China Will Send Party.  
MOSCOW, March 29.—A coming visit to Russia of a group of American workmen is announced by William Z. Foster, one of the Executive Committee of the Third International.

"Recently an immense meeting held in Chicago decided to send a workers' delegation to Russia," said Foster. "More than 1000 already has been raised. The workers will soon be here. When they return to America they will tell the truth of our attainments."

Foster was speaking to the employees of a Government factory at Kharkov, named the "Sickle and Hammer." He continued: "My eyes sparkle when your factories for new plants are under way. The sight confirms the stability and strength of the Soviet power."

## FASCIST PROGRAM STILL IS 'FIGHT,' —SAYS MUSSOLINI

Italian Premier Declares Nation Must Be Disciplined, Ready to 'Seize Wheel of Destiny.'

Indirect effort is made to have the constitutional question passed upon. The flexible provisions were written into the 1922 tariff act in order to provide some means of expeditiously meeting conditions. In view of world-wide disturbances of the economic fabric which existed when the law was enacted, and thus the Tariff Commission was set upon an uncharted sea. Section 315 is the one most frequently referred to as the flexible tariff, but there are two other sections, 316 and 317, which are companions to it. Section 315 empowers the President, after investigation by the Tariff Commission, to change rates of duty within the limitation of 50 per cent, to equalize differences in costs of production of any commodity in the United States and in the principal competing country. Section 316 deals with unfair practices, empowering an increase of duty of from 10 to 50 per cent on exclusions of imports under extreme conditions. Section 317 deals with discriminations against products of the United States and authorizes an increase of duty up to 50 per cent on any product of the country so discriminating as a retaliatory measure.

As section 317 deals with delicate subjects, questions arising under it thus far have been handled through the State Department and its powers have not been invoked. Under section 316, the tariff commission has received six formal complaints in one of which a temporary exclusion order was issued through the Treasury Department directly under the powers of this section.

**8 Increases, 2 Reductions.**  
It is with section 315 that the greatest interest lies and around which the greatest controversy rages. Under this section, 261 applications for changes in tariff duties have been filed; the commission has ordered 52 investigations; 18 have been reported to the President and the executive has acted in 12. In eight cases the President has increased duties. He has issued proclamations making decreases in two commodities.

In the sugar case in which the commission divided in its report, the majority favoring a decrease, the President declined to make any change, and in the cotton glove case where the report indicated an increase necessary to equalize costs, he likewise declined to make a change. Two cases have been dismissed for lack of sufficient data to form sound judgment. The other cases reported still are pending before the President.

## INQUIRY INTO WAR GUILT OPPOSED BY PEACE BODY

World Alliance Committee Says Consideration of Question Might Jeopardize Friendship Move.

NEW YORK, March 29.—Insufficient time has elapsed since the World War to determine the relative guilt of the nations involved, in the opinion of a special committee appointed by the World Alliance for International Friendship through the churches to consider the question.

The committee made public its attitude today in a letter to Dr. Kapler, president of the German Evangelical Alliance of Churches, who had requested a statement of the attitude of the World Alliance toward the submission of the question of war guilt to a formal investigation.

The special committee decided that the consideration of the question at this time would be unwise, unfortunate and fruitless. This decision was approved by the executive council of the American Council of the World Alliance.

An official investigation of war guilt might seriously jeopardize the movement toward more friendly relations now proceeding at such a gratifying pace, the special committee stated.

The Rev. Dr. Arthur J. Brown headed the committee, which included the Rev. Dr. Russell Bowie, Dr. Hamilton Holt, Frederick Lynch and Mrs. Edgerton Parsons.

## CUBAN PLOTTERS KILL 2 MEN

Gang Supposed They Had Told Police About Kidnaping.

HAVANA, Cuba, March 29.—Reports of two additional murders and the wounding of a third man in connection with kidnaping plots have been received here from Camaguey, where Manuel Velasco was found dead near Central Velasco. Vicente Pasqual was shot and killed, and Juan Perez was wounded Saturday night 12 miles from Camaguey City. The shooting was done by three men who escaped into the hills.

As in the case of Jose Maria Abreu and Jose Acosta, who were killed last week, the three other men were shot because they had given information to the police concerning the kidnaping of Col. Enrique Pina three weeks ago. Pina was released by the kidnapers on payment of a ransom.

## CHILE DECLINES TO DELAY PLEBISCITE

Willing to Accept American Mediation in Tacna Dispute Only if Voting Takes Place

By the Associated Press.  
WASHINGTON, March 29.—The Chilean Government has declined to concur in the suggestion of Secretary Kellogg that the plebiscite to settle the Tacna-Arica dispute be suspended during the proposed conference of representatives of Chile and Peru in Washington.

The new development is not regarded by Secretary Kellogg as a barrier to the mediation offered by the United States.

The Secretary takes the position that both Chile and Peru have accepted the mediation offer, and that the open question as to the plebiscite proceedings does not impair the agreement that has been made.

The position of Chile was disclosed last night in a memorandum from the Minister of Foreign Affairs to American Ambassador Collier at Santiago and made public by the embassy here.

The memorandum, in reply to one submitted by Secretary Kellogg, suggested that the plebiscite be suspended for a time, declared "the Government of Chile greatly deplors that it is not in a position to receive the suggestion to suspend immediately the plebiscitary proceedings."

Such suspension, it added, "would mean a reversion to the uncertain and dangerous situation which was ended by the recent resolutions of the plebiscitary commission."

The memorandum argued that continuance of the proceedings, "which can in no way impair the negotiations of good offices, will favor a solution which, once it is reached even in principle, will mark the moment to consider the suggestion which your excellency has transmitted, without the difficulties it offers at the present time."

The memorandum reiterated that Chile will accept the good offices of the American Government to negotiate for settlement of the dispute only in the event the plebiscite is permitted to continue.

Peru, on the other hand, has contented for suspension of the plebiscite, holding that it has accepted the good offices offer on that condition.

## DUKE OF ALBA'S FIRST BORN

Daughter Heiress to 20 Grandest Estates and 60 Titles.

MADRID, March 29.—A daughter was born yesterday to the Duke and Duchess of Alba, both well known in the United States. As first born, the child in later years will enjoy 20 grandest estates and 60 other Spanish titles.

Santiago, tenth Duke of Berwick and seventeenth Duke of Alba de Tormes, Spain's most democratic, as well as highest, grandee, married Maria del Rosario, Marquise de San Vicente del Barco, in London in 1920. The Duke is 48 years old and the Duchess 26.

## PRELIMINARY MEETING ON ARMS MUST DEAL WITH ISSUES ALMOST INSOLUBLE

War Strength of Nations No Longer Can Be Measured by Munitions in Storage—Former Allies Suspicious.

By ALBIN E. JOHNSON,  
A Staff Correspondent of the Post-Dispatch and New York World.  
GENEVA, March 29.—From Geneva, where all the efforts to obtain universal peace are centering, one cannot help getting a real perspective of disarmament, arbitration, and security, and, putting it bluntly, disarmament, as popularly conceived, is an illusion.

What is possible is limitation of armaments, a breathing spell for the recovery of economic and social equilibrium and a halt in the competitive race for supremacy in the production of war material such as was obtained to a limited extent by the Washington Naval Conference.

None but the uninformed will argue that the Washington conference purports made war appreciably more remote.

**Old Ships Scrapped.**  
It scrapped a lot of antiquated warships, diverted public funds into productive channels and provided a sort of "armistice" during which it is hoped that peace psychology will supplant jingoism. But while a limit was placed upon building operations the perfecting of undersea and overseas arms of naval warfare—submarines and airplanes—goes on apace.

To the average individual the way to eliminate war is to destroy all existing instruments of war. One might as well expect to eliminate crime from New York, Kansas City or Cleveland by taking away guns for crooks and policemen alike. It would reduce them to the necessity of using blackjacks and fists. The idea takes on the attractiveness of a crusade and immediately enlists the public imagination and interest.

**Armaments as Symptoms.**  
Armaments are the symptoms of political freedom of the conditions. Even to limit them one must first find means of ameliorating these conditions and averting, or softening, crises which are bound to arise through the clash of national interests.

With the principle of arbitration firmly established should come a feeling of security. With security, the possibility of limitation of superfluous and expensive armaments.

What actually is contemplated at the moment in regard to disarmament, is a cautious drift towards limitation in direct proportion to the increase in security. Economic conditions may have accelerated this to some extent, and the Pact of Locarno undoubtedly will add considerable impetus.

At the moment there are actually 1,500,000 less men under arms in the world than there were in 1913. A million less in Europe alone. But this decrease may be due to the forcible disarming of Germany, Bulgaria and Austria and the growing desire on the part of some smaller nations to abolish army entirely, on the theory that no army is safer than a small army.

The problems the Disarmament Preparatory Commission will face are seemingly insuperable, political in character. It is admitted that it will be impossible to reduce Europe's armaments much further than they are today unless the political situation is first organized to give a far greater sense of security than exists.

**Task of Conference.**  
The committee will be asked what is to be understood by the term "armaments." It will have to decline the various factors, military, economic and geographical, on which the power of a country depends, the special characteristics of various factors which constitute the armaments of a country in peace; to say whether it is practicable to limit the ultimate war strength of a country.

What is to be understood by the expression "Reduction and Limitation of Armaments?" By what standard is it possible to measure the armaments of one country against the armaments of another? Is it possible to make a distinction between offensive and defensive armaments? On what principle is it possible to draw up a scale of armaments for various countries, taking into account population, resources, geographical situation, length of coast line and nature of maritime complications, time required to transform peace armaments into war armaments; degrees of security which, in the event of aggression, a state could receive under the provisions of the League covenant or of special engagements?

A ticklish question—one that not discuss—is whether the reduction of armaments can be promoted by examining possible ways for ensuring that the mutual assistance contemplated in Article XVI of the covenant may be brought quickly into operation when an "aggression" takes place.

Admitting that disarmament depends upon security to what extent is regional disarmament possible?

### 65-YEAR-OLD FEUDIST LOSES FIRST FIGHT

Former Kentucky Minister,  
Said to Have Slain Three;  
Once Sentenced to Hang.

By the Associated Press.

PIKEVILLE, Ky., March 29.—  
Elijah Wright has lost a fight.  
Three times during the course of  
his 65 years of life, Wright is said  
to have sent men to their graves,  
and once he sent a man to a hos-  
pital dangerously wounded.  
Today he himself is in a hospital  
here recovering from a severe beat-  
ing administered by an officer,  
Wright, who in the course of his  
varied career has been in two peni-  
tentiaries and once nearly hanged,  
was beaten and charged with il-  
legal possession of liquor by Deputy  
Constable J. M. Johnson, acting  
Wright had abused the deputy's  
sister.

It was nearly 40 years ago, in  
Leitch County that Wright first  
came in conflict with the law. A  
dog fight had led to a difficulty  
with a brother, and when his  
brother and a Magistrate came to  
his house to arrest him, Wright  
killed his brother. Wright was  
tried and sentenced to life impris-  
onment, but on appeal to high  
courts, the decision was reversed  
and a new trial ordered. At a  
later trial Wright was acquitted.  
Eight years passed and in the  
meantime Wright had been or-  
dained a Baptist minister. Wright  
became engaged in a religious ar-  
gument with Newton Ramey.  
Wright won the argument and Ra-  
mey was expelled from the church  
to die later from the effects of a  
beating said to have been admin-  
istered by Wright. Wright was  
speedily acquitted.

Again a lapse of time, four years,  
and Wright faced trial in Virginia  
for the slaying of Bill Cyphers and  
was sentenced to hang. The Gov-  
ernor intervened, however, com-  
muting the sentence to life impris-  
onment and later Wright was par-  
doned, and returned to Kentucky.

Before long he was again in con-  
flict with the law. It was during  
a vote on local option, with the  
"wets" apparently winning, that a  
brawl started. Shooting followed  
and George Hunt was shot.  
In a "dying statement" to a mag-  
istrate, Hunt said "Elijah Wright  
killed me—killed me with a forty-  
four." Hunt recovered and the  
charges against Wright were drop-  
ped. Hunt is living today.

**LEADER OF GANG THAT STOLE  
\$1,000,000 SAYS HE'S BROKE**  
Prosecutor Declares Confession of  
Richard Whittemore Doesn't  
Account for Stolen Funds.

By the Associated Press.  
NEW YORK, March 19.—Rich-  
ard Reese Whittemore, leader of a  
robber gang, had the greater part  
of \$250,000 hidden away, and is  
striving to get the State to save  
him from execution so he can use  
it, in the opinion of District At-  
torney Banton.

Whittemore says he is penniless  
and counsel was assigned to him.  
But, argues Banton, Mrs. Whit-  
temore has been able to get coun-  
sel and Leon and Jacob Kraemer,  
called the brains of the gang by  
the District Attorney's office, are  
plentifully supplied with money,  
which they are using for their de-  
fense.

The secret is in Banton's opin-  
ion, that Whittemore is charged  
in Erie County with the murder  
of two guards of an armored car,  
and in Baltimore, with the murder  
of a jail guard. Whittemore has  
made a confession which withholds  
information as to the disposal of  
most of the nearly \$1,000,000 ob-  
tained by the gang before its car-  
eer was interrupted. Whittemore  
says all the money was spent in  
luxurious living.

This confession is known to in-  
criminate Whittemore, but not  
Mrs. Whittemore or the Kraemers.  
Banton argues that Whittemore  
is eager to avoid trial for murder,  
and to keep the others out of jail.

WASHINGTON, March 29.—As-

Senate Judiciary Committee at  
hearings on bills to modify the pro-

**PRINCE OF WALES UNDERGOES**  
**EAR ABSCESS OPERATION**  
Illness Is Sequel to Influenza At-  
tack and He Probably Will  
Be in Bed for Week.

LONDON, March 29.—The Prince  
of Wales today underwent what is  
termed a slight operation to relieve  
him of pain due to an abscess in  
his ear, superinduced by an attack  
of influenza.

Announcement that the operation  
had been performed in St. James'  
Palace was contained in a bulletin  
posted at 2:45 a. m. It was signed  
by four physicians, among them Dr.  
Arthur H. Cheate, lecturer on  
aural surgery at Kings College Hos-  
pital. The bulletin said:

"H. R. H. the Prince of Wales  
had a return of the pain in the  
ear, the condition being a sequel  
to the influenza. It was accord-  
ingly decided that a small opera-  
tion to incise the drum was neces-  
sary. This has been done and re-  
lief has followed."

During the forenoon the follow-  
ing official information was given  
out at St. James' Palace: "The  
Prince is making good progress.  
He had some sleep and he has no  
pain."

It is expected that the Prince  
will be confined to his bed for a  
week. His holiday at Biarritz, for  
which he intended to leave next  
Thursday has been postponed until  
after Easter. The King and Queen  
arrived from Sandringham this  
morning and went directly from  
the station to their son's bedside,  
where they remained some time.

It was on account of ear trouble  
that the Prince had to forego wit-  
nessing the Grand National Steeple-  
chase at Aintree, last Friday.

So accustomed is the public to  
regard Wales as the embodiment of  
physical health and vigor that the  
announcement that he was laid up  
from an operation came as some-  
thing of a shock, although it was  
accompanied by the assurance that  
there was nothing serious the mat-  
ter with him. The newspapers had  
a great sale, and everybody was  
talking about the Prince.

**INTERNATIONAL PRESIDENT**  
**OF KIWANIS SPEAKS HERE**

J. H. Moss Declares That Service  
Clubs Are Invaluable to  
Communities.

Service clubs are invaluable to  
a community because of their defi-  
nite field of activity in arousing  
civic consciousness and promoting  
ethical standards, John H. Moss of  
Milwaukee, Wis., president of Ki-  
wanis International, said today at  
a noon meeting of St. Louis Ki-  
wanis at the American Annex Ho-  
tel.

"The politically chosen agencies  
of Government are restricted by  
legislation to well defined lines of  
administration," he said. "The  
complexities of modern business  
and social life created requirements  
of activity not covered by those  
agencies and our commercial asso-  
ciations came into existence. Their  
scope of effort is necessarily con-  
fined to commercial and industrial  
promotion. The service club takes  
care of wants which the other  
agencies cannot recognize."

The Kiwanis Club, described by  
Moss, was formed in Detroit in  
1915, and has developed into an  
organization of 1470 clubs with  
100,000 members.

**CAMPAIGN ISSUES DEFINED**  
**BY DEMOCRATIC CHAIRMAN**

By the Associated Press.

WASHINGTON, March 29.—  
Presidential appointments, the  
Aluminum Co. of America, in which  
Secretary Mellon is a stockholder,  
the Tariff Commission, investiga-  
tion and tax reduction will be em-  
phasized in the Democratic cam-  
paign to gain control of Congress  
this fall. This was made clear in  
a statement issued today by Clem  
Shaver, chairman of the Demo-  
cratic National Committee, who as-  
serted that "the congressional cam-  
paign is approaching, with excel-  
lent outlook for gains that will  
mean Democratic control in both  
branches."

"The effort of the President to  
intimidate and coerce members of  
boards and commissions by asking  
for written resignations or compro-  
mising commitments when he  
makes appointments is an outstand-  
ing violation of the principles of  
free government," the chairman  
declared.

"The resolution to ascertain  
whether the Attorney-General had  
been expeditious in prosecuting an  
inquiry of the Aluminum Co. of

America—a resolution looking to  
the employment of special counsel  
—was defeated in the Senate, in  
keeping with administration policy,  
but the rising tide of popular in-  
dignation over the administra-  
tion's tampering with the Tariff  
Commission led to adoption by the  
Senate of a resolution resulting in  
an investigation now under way."

# HALLAHAN HOLDS WHITE SOX TO 2 HITS, CARDINALS WIN, 2 TO 0

## Doubles by Hafey and O'Farrell Score Run Off Leverette in the Second

By William J. McGoogan

DALLAS, Tex., March 29.—Little Bill Hallahan, recruit southpaw, held the Chicago White Sox to two little hits as the Cardinals defeated Eddie Collins' men, 2 to 0, in a seven inning exhibition game here this afternoon.

Bob O'Farrell's pinch hits drove in both the Cardinal runs. The game was played in a drizzling rain which eventually resulted in shortening the contest to 7 innings.

It was a cold, dreary day and only a few fans attended. Bill Hallahan, the little southpaw, went to the box for the Cardinals and O'Farrell was behind the bat. Eddie Collins sent Leverette to the hill, while Grabowski did the catching.

The game:  
**FIRST INNING.**  
CHICAGO—Hornby threw out Mostil, Scott walked, Collins hit into a double play, Hornby to Thevenow to Bottomley. NO RUNS. CARDINALS—Blades bunted and was out. Leverette to Sheely. It began to drizzle. Mueller fanned but had to be thrown out. Grabowski to Sheely. Hornby singled over second but was out stealing. Grabowski to Scott. NO RUNS.

**SECOND INNING.**  
CHICAGO—Sheely walked. Falk forced Sheely. Bottomley to Thevenow. Hallahan tossed out Barrett. Grabowski filed to Thevenow in short left. NO RUNS. CARDINALS—Bottomley popped to Collins. Hafey doubled to right. O'Farrell hit the left field fence for a double, scoring Hafey. Thevenow filed to Mostil. ONE RUN.

**THIRD INNING.**  
CHICAGO—Hornby threw out Mostil. Scott walked. Collins hit into a double play, Hornby to Thevenow. Scott singled to center, sending Mostil to third. Collins filed to Blades. NO RUNS. CARDINALS—Hallahan struck out. Blades doubled to left. Falk got his hands on the ball but slipped and fell and ball bounced out away. Falk caught Mueller's drive in deep left center. Hornby filed to Mostil. ONE RUN.

**FOURTH INNING.**  
CHICAGO—Sheely filed to Thevenow behind second base. Falk popped to Bottomley. Barrett struck out. NO RUNS. CARDINALS—Bottomley singled to center. Attempting to sacrifice Hafey popped to Leverette. Bell out. Sheely unassisted. O'Farrell singled to left, scoring Bottomley, and took second on the throw home. Thevenow struck out. ONE RUN.

**FIFTH INNING.**  
CHICAGO—Hafey made a clever catch of Grabowski's liner to right center. Kamm filed to Mueller. Leverette struck out. NO RUNS. CARDINALS—Scott singled out Hallahan. Blades filed to Mostil. Mueller singled to center. Hornby filed to Falk. NO RUNS.

**SIXTH INNING.**  
CHICAGO—Hallahan tossed out Mostil. Thevenow threw out Scott. Collins doubled to left. Collins took third on a wild pitch. Hallahan deflected Sheely's smash to Hornby who threw the runner out. NO RUNS.

**SEVENTH INNING.**  
CHICAGO—Bell threw out Falk. Barrett out. Hornby to Bottomley. Grabowski walked. Kamm was called out on strikes. NO RUNS. CARDINALS—Hornby walked to short for Chicago. Hallahan struck out. Collins threw out Blades. Blankenship tossed out Mueller. NO RUNS.

The game called account rain.

What disposition of the offer will be made by Pitt athletic authorities was unknown today.

## INDOOR SPORTS

## Rochester Tenpin Star Takes Lead

Buonomo Goes Into First Place in A. B. C. All-Events With 1977.

By the Associated Press.  
CLEVELAND, O., March 29.—With some of the leading pin artists of the country in action during the latter part of the week, new leaders appeared in the two-man events and the all-events of the American Bowling Congress Tournament and with more star teams on the drives it is predicted that other marks will be shattered before the close of the week.

Fred Gardella and Fred Tocco of Detroit topped into first place in the two-man event Saturday afternoon with 1955, their games being 471, 421 and 465. And on the same shift another pair from the Michigan City, Itasca and Fucik went into third place with 1255.

Charles Buonomo of Rochester, N. Y., capped the leader Sunday in the all-events with 1977, which marks tie last year's record made by C. Long of Buffalo. As lead-off man for the P. A. River team he gathered 654 then in doubles came through with 737 and wound up the singles with 586.

The Munkel-Lamneck Furnaces of Columbus crashed into fourth place in the five-man event, with 2988 last night while the Peoples Ice Cream team of Chicago was close behind with 2975, giving the team fifth place.

On the late shift last night were a lot of money teams, there being over the \$500 mark, not including the two which landed in the coveted list.

Out-of-town bowlers will hold sway on the drives during the week, some of the track aggregations of the country being scheduled. The tournament will close Tuesday, April 6, when the last two men and individuals are rolled.

**DEMURE HELEN WINS FRIENDS BUT LOSES A SEET TO ITALIAN STAR**

By the Associated Press.  
ROME, March 29.—Miss Helen Williams made a favorable impression on her first appearance on Italian courts today.

She lost a one-set exhibition match to a strong male player, Clemente Serventi, last year's Roman champion, at 7-5 but was avenged in a mixed doubles exhibition set when, paired with Giorgio de Stefano, she defeated Serventi and the Countess Giannuzzi, 6-4.

The matches were played at the exclusive Roman tennis club before a gallery consisting mostly of nobles and fashionables and including a score of American divinity students in their robes and colorful sashes.

Helen's demure demeanor and her neat and graceful appearance on the court seemed to win the hearts of the Princesses, Duchesses and Countesses, and women of the diplomatic circle, all costumed in the latest Paris modes.

She was off form in her brief test against Serventi, but had the satisfaction of forcing the set to deuce after he had piled up a 5-1 lead. Her brilliant returns drew much applause.

"I am having a wonderful time in Rome," she said after the exhibition. She will play again tomorrow.

## Handball, Tennis And Golf Added To Prep Program

League's Action Gives Small Schools Better Chance in Competition for Trophy.

Handball, tennis and golf have been added by Preparatory League officials to the list of recognized sports which already includes football, basketball and track. By next season it is expected swimming and soccer will be given approval also.

The Lane Trophy, principal prize award, is given on the basis of excellence in all sports and goes to the school with the highest all-around average for the year. It is believed that the addition of handball, tennis and golf will furnish a better chance for the smaller members of the circuit to win the league cup. Lack of material for teams, due to small enrollment, has hampered the lesser schools heretofore.

The tennis and handball schedules have been made up to fit in with the baseball program. For the first half of the ball season the tennis teams will accompany the baseball teams and play simultaneously and handball will supplant tennis for the remainder of the baseball schedule.

Track has not yet been arranged for but will soon be announced.

## Three-Year-Old Takes Coffroth By Eight Lengths

Hand-Bred Colt's Time of 2:02 3-5 Clips Two Full Seconds Off Track Mark.

By the Associated Press.  
TULANA, Mexico, March 29.—Carlaris made every post a winner in the seventh running of the Coffroth Handicap, at one mile and a quarter, the richest race for older horses run in North America, at the Lower California Jockey Club here yesterday afternoon.

Breaking from the rail position, Carlaris sent the 3-year-old to the front and kept him there to win at the eighth length. In the track record time of 2:02 3-5, Roycroft, a 3-year-old from the stable of Fred Croissant, was second, and Cherry Tree, owned by Baron Doreen, was third.

Princess Doreen, with Earl Munden sent the 3-year-old to the front and kept him there to win at the eighth length. In the track record time of 2:02 3-5, Roycroft, a 3-year-old from the stable of Fred Croissant, was second, and Cherry Tree, owned by Baron Doreen, was third.

## Carlaris' Time Was Better Than Record for Derby

By the Associated Press.  
NEW YORK, March 29.—CARLARIS, W. T. Anderson, 3-year-old, which captured the Coffroth Handicap yesterday at Tulana by eight lengths, faces a severe task in the Kentucky Derby if racing precedents is to be relied upon. The colt was imported from England and only twice in history has an imported horse been in the money in the Churchill Downs Classic. That was in 1916 when A. K. Macomber's Star Hawk ran second to George Smith, and in 1917 Omar Khayyam won the classic.

The time yesterday, 2:02 3-5, for the 1 1/4 miles, was four-fifths of a second better than any time by winner ever has done, the best mark in the Derby having been registered by Old Rosebud in 1914.

as follows: 2:02 3-5 seconds for the quarter, 46 1-5 seconds for the half, 1:10 1-5 for three quarters, 1:35 4-5 for the mile.

The Coffroth, which had an added money value of \$65,000 was worth \$70,000 to the winner. Second money was \$30,000, third \$15,000 and fourth \$10,000. In addition the horse was presented with a silver drinking bucket.

## Millers Trim Canadians And Will Play in Final For U. S. Soccer Title

Bollam and Jim Dunn Make Good on the Only Two Real Scoring Opportunities Presented to Ben Millers—7000 Attend.

By Dent McSkimming.  
For the sixth time since 1920, the date of their original entry into the national soccer championship series, a St. Louis team has reached the final. The Ben Millers yesterday made good on their only two scoring chances of the game and defeated the Canadian Club of Chicago, 2 to 0, in the Western division final.

To say that the Millers had but two good opportunities to score is no exaggeration, for the only other shots taken were a few hasty things by Jim Dunn, late in the second half, each a wild stab at the goal corner and not a real shot. George Bollam scored in the first half for St. Louis, driving a short shot past Goalkeeper Neate on a long, low cross from Mulroy. Jim Dunn registered the second when he took a pass from his brother, Eddie, outwitted Fullback King, coaxed Vic Neate out of his goal and then adroitly slipped the ball past the bewildered goalie.

A crowd of 7000 attended the game, 6758 of whom paid for a view of the entertainment. The field was in perfect order, dry and fast and true. A steady breeze from the west favored the Chicago team in the first half, but in the closing period the Millers had the same advantage. By a pre-arranged policy, the Millers chose to kick against the wind in the first half, after they had won the toss of the coin.

Conditions Favor Locals.  
This combination of strong wind, fast, hard field and a tightly blown ball proved anything but an advantage to the Canadian Club players. The ball had too much life to it for their short-passing purposes and it failed to disturb the Millers, who like things just as fast as they can have them.

While there is no doubt that the Millers won the game on the merits of their own play, the Chicago players were inclined to complain, after the game, that their own forwards were "away off form." A fast, vigorous defense always tends to make the opposing forwards look weak. The unhesitating tackling by Fullbacks Erbe and Daley, the close covering of the extreme wing men by Halfbacks Croak and Tracy and the untiring defensive work of Allan Peterson brought about this condition of a demoralized Chicago forward line.

There was nothing wrong with the Canadian Club's defense except that Fullbacks Anderson and King each made one slip during the hour and a half of busy kicking. Anderson missed a kick just before Bollam slammed his first goal into the net, while in the second half Fullback King should have cleared the ball before Jim Dunn got his foot on it. Two very slight errors in themselves, but they cost Chicago a chance at the national championship.

Hardest Shot of the Game.  
The hardest shot of the afternoon was a terrific drive from outside the penalty area by inside left, Erskine. Barpett was well beaten but the Millers got a break when the ball crashed against the goal cross bar and rebounded into the field.

In the first 30 minutes of play, it was all Canadian Club and the

## Billiken Nine To Open Season Against Iowa

Stanton Likely to Pitch for St. Louis U. in Contest Here Thursday.

Collegiate baseball, a fast dwindling species, will be on exhibition at St. Louis University Field Thursday afternoon, when the Billikens meet the University of Iowa squad. It will be the season's opener for the locals.

The visitors will find themselves playing on the same diamond on which they suffered defeat at this time last season, but will face a very different team, only three members of which were in last year's lineup.

In all probability Stanton, who beat Iowa last year, will be on the mound for Coach Savage's cohorts, and either Jordan or Ulukou, two newcomers, will be behind the bat. Kapl, a letter man, will be at third base, and Lewis, the third regular, somewhere in the outfield.

The remainder of the lineup is uncertain. O'Leary, a former Solan athlete, seems to be a leading candidate for first base, and Spain, a medic, for second base. Kane, formerly with Chamaine, stands out at shortstop.

From clever work by the wing men, Mulroy and E. Dunn. In each case, the forward sprinted just a step ahead of the opposing player and then, while still very hard pressed, hooked the ball straight across to the awaiting teammate.

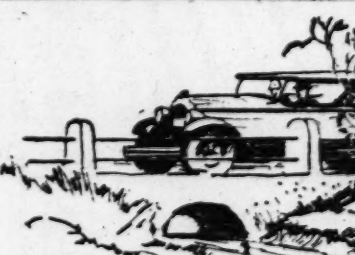

Benny Nash and Raphael Tracy played above normal speed. Nash might have been even better had he not fallen a victim to the desire to dribble past too many opponents.

Peterson Handicapped.  
Allan Peterson played remarkably well when it is considered that he was suffering from a leg injury which had him limping for two weeks prior to the game.

Referee Dave Evans handled the game in faultless style.

## Crepe Hangers Hard at Work Decorating a Mausoleum for Pennant Hopes of the Browns

Record of Six Victories, Five Defeats and One Tie in Coconut League Eliminates Danger of Overconfidence—Pitchers Have Not Pitched and Batters Have Not Shown Punch.

By John E. Wray.

SPORTS EDITOR OF THE POST-DISPATCH.  
TARFON SPRINGS, Fla., March 29.—The close of the Coconut League exhibition game season sees the crepe hangers hard at work decorating a mausoleum for the Browns' hopes. Six victories, five defeats and one tie, against teams that belong to the basement division of their respective leagues have caused no prideful swelling of Brown chests.

On the contrary, the return of the team to its base at Tarpon Springs was like unto the retreat from Moscow. It saw the army of Brownie supporters dwindle away to a few hardy annuals.

The four games played on the southward trip seem to prove that the Browns are still as strong away from home as ever—that is, strong like a venerable lumberger.

The despised Phils headed for nowhere but the cellar extended the Browns to the limit in both their games, one an extra inning affair, while the Buffalo Bisons, a minor organization, carried the Sisker men 18 innings to a tie. Then came the grand slam of the Braves, another second division outfit, with a 11-0 victory over our fellows. Ouch, not so good!

Some Lectures Scheduled.

It means that there will be plenty of club house sarcasm, with Manager Sisker wielding a wicked tongue and plenty of hard work up to April 2, when the team breaks camp. The club seems to need both. Although its physical condition and spirit both are all right, the club is not functioning properly. The hitters are not hitting and only a few of the hurlers know what to do with a big league ball, in the way a big leaguer ought to. Thus far none has blamed it on the new "dead" ball which seems lively enough for enemy batters. The men are just behind their training schedule. At this writing it will be fortunate indeed if the team comes up to St. Louis, one week from Saturday, ready to give a satisfactory account of itself at bat or on the hurling hill.

The team has seemed desperately weak at bat against good pitching. Its hitting average has shrunk from over .300 to .262 in two weeks. Many of the regulars are not hitting the size of their sox. Rice, McManus, Jacobson, Dixon and Gerber especially may be mentioned.

Hurling Has Been Miserable.  
As for the hurling, take a peek at the figures and get discouraged.

## Other Sport on Page 24

for the Browns consists in the continued fine showing of Schang and Melillo, the evidence of the eyes as well as of the records to show that Gene Robertson has come back, the certainty that the "bean" ball accident of last year has not hurt Ken Williams' confidence, and the all-round health enjoyed by team members. Top form, therefore, may linger in the lap of winter a little longer, but ought not to be far distant on April 13.

ST. LOUIS soccer officials are not inclined to accept the decision of the U. S. F. A. cup committee, instructing the Ben Miller club to appear in Brooklyn for the national final on April 11. Negotiations are still going forward seeking the transfer of the game to St. Louis, to be played at St. Louis University Field next Sunday.  
While no official announcement was made today, it is understood that the Ben Miller management and players are prepared to refuse to play the game in the east although the penalty for such refusal may be suspension from the U. S. F. A.

# FAIRMOUNTS WIN FIRST GAME OF MUNY SOCCER TITLE SERIES, 4 TO 0

## Democratic Club Blanks Grand - Kossuth Eleven; Fink Scores Three Goals

Forward Who Has Figured on Receiving End in Many Park Free-for-Alls, Leads Attack for Victors — One More Triumph Will Clinch Title for Manchester Park Team.

By virtue of a superior punch when in the region of the enemy goal the Fairmount Democratic Club soccer eleven was able to shut out the Grand-Kossuth Business Men, 4 to 0, yesterday at Fairmount in the first of the three-game municipal championship series. About 5500 persons witnessed the game. The second contest of the series will be played next Sunday.

Inability to force the ball in when opportunity presented kept the losers scoreless. They had little trouble in carrying the ball down the field, but were not equal to the Fairmount defense when the latter's goal was in danger. Otto Fink, forward, led the attack for the Fairmounts, scoring three of the four goals. Fink, always the target for surreptitious blows, also established a record by emerging from the scrumming and mix-ups with an unscathed nose. Burns and Boyer did splendid work at fullback for the victors and kept the enemy forwards at a distance.

Three Goals for Fink. Fink scored his first goal on a corner kick, heading the ball in. A short boot, from close to the goal posts, after a pass from Mueller, accounted for his second tally and the third was another header after a corner kick. Spindler scored the fourth goal, heading in the ball on a free kick. Two goals were scored in each period. Grand-Kossuth opened the hostilities with a prolonged and determined effort to count early and Goalie Sauter was busy with his fists until the Fairmount offense got going. Favored by a strong wind, the Fairmounts scored twice before the close of the half. Faced with the wind the Fairmounts were just as effective in the second half, scoring another pair of goals. Halfback Dusker starred for Grand-Kossuth.

### OREGON AGGIES TO ENTER RELAY TEAM

By the Associated Press. DES MOINES, Ia., March 28. — Interest in the Drake relays to be held April 23 and 24 was increased yesterday with the announcement that the Oregon Agricultural College would again send its four-mile relay team to the meet, and thereby take up its old grudge with the University of Texas in that event.

Last year the two schools furnished a bit of excitement in the four-mile event when the Southerners noted out the Aggies at the tape. The time was 17m 53.2-10a. The four-mile relay also will see entries from Wisconsin, Illinois, the Kansas Aggies and Notre Dame.

### Fall River Held to Tie.

By the Associated Press. PROVIDENCE, R. I., March 28. — The Fall River F. C. and Providence team played to a 1 to 1 tie at Providence yesterday. Neither team scored in the first half. Fall River presented a crippled lineup. Florio scored on a penalty kick after half an hour of the second half, but that there was nothing definite yet. If he decides to try for the cup again he will build a new team, the Shamrock V.

### TWO BASKET CAPTAINS FOR WASHINGTON U.

The vote for 1924-1925 basketball captain at Washington University has resulted in a tie between Frank Hutton and Carl Stanford. They will serve jointly next season. Both will be seniors.

### Genet Beats Pepper.

By the Associated Press. SIOUX CITY, Ia., March 28. — Norman Genet, Akron, O., middleweight, outpointed Freeman Pepper, Minneapolis, in the 10-round final bout of a boxing show here last night.

## Young Stribling's Schedule Includes Bout in St. Louis

Georgia Heavy to Make Tour of the Middle West Next Month.

By the Associated Press. KANSAS CITY, March 28. — An April tour of the middle west by W. L. (Young) Stribling, heavy-weight boxing contender, during which he will box six exhibition bouts was announced by Jay J. Thomas of Kansas City, who arranged the bouts for Stribling's nation-wide tour last year.

The details were agreed to by telegraph yesterday. The cities, dates and probable opponents are: Omaha, April 7, Chuck Wiggins; Wichita, Kan., 10, Chuck Burns; Oklahoma City, 13, Tom Markel; Kansas City, 16, Joe Lehman or Sully Montgomery; St. Louis, 22, opponent to be selected and Denver, Col., 28, opponent to be selected.

## COMMODORE BARRY FIVE TAKES FIRST POSITION IN K. C. PIN EVENT

By the Associated Press. TOLEDO, O., March 28. — The Commodore Barry Majors No. 1 of Chicago shot into the lead in the fourth annual National Knights of Columbus tournament here, with 2010, their games being 974, 973 and 1014. The Hennepin Shores of Chicago went into fifth place with 2322.

The new leaders won the A. B. C. five-man team championship in 1925 with 2905, rolling under the name of the Commodore Barrys. Another change was made when Dayton No. 1 rolled into fourth place with 2215.

Only one change was made in the two-man event when Devito and Brennan, Chicago, landed in fourth place with 1256. In the singles L. Barrett of Chicago took fourth place with 684.

## SPIELMAN IS LEADER IN CHESS TOURNAMENT

By the Associated Press. SEMMERING, Austria, March 28. — The semifinal round of the international chess tournament was played here yesterday. Spielmann of Austria still held the lead when time was called. Dr. Alekhine of France and Dr. Vidmar of Jugoslavia were respectively second and third.

The summary: Michell, England, lost to Rubinstein, Poland; Gruenfeld, Austria, won from Yates, England; Tarraach, Germany, defeated Davidson, Holland; Vidmar, Jugoslavia, won from Treybal, Czechoslovakia; Kmoch, Austria, won from Rosselli, Italy; Rati, Czechoslovakia, defeated Glig, Czechoslovakia; Tartakower and Alekhine, France, adjourned their game; Spielmann, Austria, won from Nimanowitch, Denmark; Valja, Hungary, defeated Janowski, France.

## WORLD'S RECORD TO BE IN DANGER AT KANSAS RELAY MEET

By the Associated Press. LAWRENCE, Kan., March 28. — Three world's records will be in danger at the fourth annual Kansas relays, which will be held here April 17.

H. C. Warner of the University of Illinois is likely to come close to a record in the 150-yard high hurdles, one of the nine special events on the program. Warner made a new world's indoor record for the 60-yard high hurdles and equaled the world's record for the 75-yard high in the indoor season. Ed Weir, famed University of Nebraska athlete, will be here to defend his Kansas relay record of 15 seconds for the event.

John Kuck of the Kansas State Teachers' College of Emporia broke the world's indoor record for the shotput, and indications are that he can break the outdoor record. Kuck's indoor record was short-

lived, however, as Schwaninger of the record Kuck had. The Kansas athlete in have heaved the shot 42 yards and 10 inches, a new world's record. But neither time was it stand as a tie for the world record because of a slight wind back.

In addition to the nine events there will be 18 events. Collins Retains Title. By the Associated Press. CHICAGO, March 28. — Lina Collins, holder of the western amateur 125 pound hard championship, has retained title by winning the women's pay here. His nearest competitor the event concluded Saturday was Rex Fessenden.

# CRASH IN SPECULATIVE FAVORITES

Steel and Motor Shares Heaviest Hit in Continued Liquidation on New York Exchange.

NEW 1926 LOWS ON 125 ISSUES

French and Belgian Exchange Rates Set New Low Records—Bank Call \$25,000,000 in Loans.

By Leased Wire from the New York Bureau of the Post-Dispatch.

NEW YORK, March 29.—The Evening Post in its copyrighted financial review today says:

"Prices of speculative securities swept into new low ground for the year in continued heavy liquidation today. Little resistance was encountered by operators for the decline. Stiffening of call money rates, weakness of grain prices, a collapse of French exchange to the lowest quotation on record and reports that the Stock Exchange had authorized a questionnaire to be submitted to member firms to check up on their financial position, contributed to a general undermining of confidence. Street rumors of considerable irregularity. Although many parts of the investment list held fairly steady, liquidation was assured in some of the semispeculative securities. Tracition bonds were depressed, while some of the rail issues turned down sharply.

Score of New Lows for Year.

"With the collapse of such speculative favorites as General Electric, United States Steel, American Can, Hudson Motors, General Motors and Spedaker to the lowest levels of the year, speculation for the decline met with little resistance in the foreign liquidation in all parts of the list. Mercantile and specialty stocks, utilities, oil and even the rail shares were heavily depressed. Several wide open breaks, following the uncovering of weak orders, destroyed confidence and prices melted swiftly. Banking support appeared to be of little avail, especially in stocks which had enjoyed long advances under the sponsorship of pool operators.

Loan Call \$25,000,000.

"Confidence was also shaken by an advance in the rate for call loans from 4% to 5% and a previous low of calling of loans to the extent of probably \$25,000,000 or \$30,000,000. Interior institutions were taking back money placed in the local market.

Railway Power Feels.

"Feeling ran low place in the final hour, when traders in commitment of lower levels covered in quest of lower prices. The market was flooded the market and further losses were recorded. More than 125 individual issues were down at least one point, many at new low levels for the year. The time the closing gong had sounded, Street and money shares were heavier hit, although mercantile issues and public utilities joined in the downward sweep. Woolworth, Kresge, S. S. Macys, North American, American Waterworks, Columbia Gas and Electric, General Electric and other favorites slumped heavily. Oil shares also were under pressure, weakness being outstanding in Pan-American, Associated Oil, General Asphalt and Houston.

Carrier Resistance Better.

"Several of the rail stocks also declined, including Delaware & Hudson, Atlantic Coast Line and Chesapeake & Ohio, but as a group the carriers showed better pressure.

France at New Low.

"A new low quotation for all time of French franc was recorded in the foreign exchange market at 240c a franc against the dollar, a record of 240c. Before our market opened the figure in London had fallen to the equivalent of 235c. Business was in small volume for the day, but was scarce even at the low level. Belgian franc broke about 8 points, establishing a new low for 1926, while the Swedish and Norwegian exchanges were lower, but sterling ruled firm and recorded a small advance. Canadian rates improved.

Weakness in Grain Values.

"Several of the grain stocks also contributed to the speculative one of security markets. Wheat contracts lost more than 2c a bushel, while July and September deliveries were weak. Corn fell about 1c a bushel and oats sagged. Cotton, on the other hand, was in brisk demand and rallied to \$15.90 a bale to more active trading.

Clearings, Money, Silver.

"St. Louis Clearing House Association reported clearings for March 29, 1926, as follows: Cash, \$1,300,000; checks, \$1,300,000; total, \$2,600,000. ## MADE COMPANY'S FIRST TIRE, NOW PRESIDENT

P. W. Litchfield Elected Head  
of Goodyear Tire and Rub-  
ber Co. at Annual Meeting

By the Associated Press.  
AKRON, O., March 23.—P. W. Litchfield, senior vice president of the Goodyear Tire and Rubber Co., was elected its president by the board of directors here this afternoon.

Litchfield has been connected with the Goodyear organization for 25 years and succeeds the late George M. Stadelman.

Sales of the Goodyear Tire and Rubber Co. during 1935 were \$293,000,000, and profits were \$23,000,000. It was revealed today at the annual meeting of directors and stockholders.

E. G. Wilmer, New York, now a partner in the Dillon Read & Co. New York bankers, remains as chairman of the board of directors.

Frank K. Eschman, now vice president, was elevated to the senior vice presidency. Others to be elected vice presidents were C. F. Stone, a member of the board of directors; Clifton Slusser, development engineer; and C. A. Stillman, secretary. P. H. Hart was re-elected treasurer and W. D. Shultz was chosen secretary to succeed Mr. Stillman. Litchfield joined the company when it was engaged in making only carriage and bicycle tires. With his own hands he built Goodyear's first automobile tire, and during the years that have followed, he has been personally responsible for nearly every development of importance.

## OLD BEN COAL CORPORATION INVADES NON-UNION FIELDS

Ten of Its Southern Illinois Mines  
Not Operating Due to Trade  
Agreement.

By the Associated Press.  
CHICAGO, March 23.—The Old Ben Coal Corporation today confirmed reports that it has acquired mining properties in West Virginia and also established connections with various operating companies in Eastern and Western Kentucky, all of which are nonunion fields. The Old Ben corporation has 12 large mines in Southern Illinois, but only two of them are producing.

Ten of its Southern Illinois mines were closed, it was stated because of noncompetitive conditions brought about by the war time agreement with the miners' union. Three new fields the corporation will enter are not affected by union requirements. The new fields were not indicated.

## BOY KILLED, THREE WOUNDED WHEN SHELL BURSTS IN CROWD

By the Associated Press.  
STEVENS POINT, Wis., March 23.—Explosion of a French "75" shell in the midst of a crowd of several thousand persons here caused the death of a young boy and injuries to three members of the Wisconsin National Guard.

The boy, John Kropidowski, died an hour after being struck by fragments of the shell. The wounded are Corporals Harold Paulk and Allen Holman and Private George Frank, all members of Battery D, 120th Field Artillery, W. N. G.

A detail of the battery had hauled the field piece to the station to fire an honorary salute to the Stevens Point High School basketball team returning from Madison, Wis., where it had won the State championship.

## SAILOR'S SHIP COMES IN Older Learns He is Worth \$5,000,000.

By the Associated Press.  
HONOLULU, March 23.—The motorship Mazatlan, disabled March 19, several hundred miles off Guam, arrived here in tow of the United States Shipping Board freighter William Penn yesterday.

The Advertiser says that when the Mazatlan docked Ray Dietrich, oiler aboard the vessel, became Lord Fitzmaurice and owner of an estate in England worth \$5,000,000. Dietrich, who Capt. J. J. Mearns described as a soldier of fortune, was handed a message from a firm of lawyers in London saying he, as a grandson, inherits the estate after two years' fruitless search for others as nearest kin.

## PUBLIC HEARING AT CLAYTON TONIGHT ON ANNEXATION PLAN

Citizens Desiring to Speak for or  
Against Proposal Invited to  
Attend Meeting.

The public hearing of the Scope  
and Plan Committee of the Board

of Freeholders on the proposal of the city members of the board for annexation of St. Louis and St. Louis County as one municipality will be held at Clayton Court House, in Circuit Court Room No. 2, at 7:30 o'clock tonight.

Citizens desiring to speak for or

against the plan, or portions of it, will be heard by the committee. The proposal has been published in detail.

Joseph Forshaw of Richmond Heights, president of the County Annexation League, which favors the city scheme, has sent out numerous letters and circulars urging

proponents of annexation to attend and express themselves. The Watchman-Advocate, a Clayton newspaper, owned by Fred Rosen, boss of the county and a freeholder opposed to the plan, has invited county residents to attend and "state your objections to the proposed merger."

Tractor Officer Will Speak Here.  
D. W. Snyder Jr. of Springfield, Ill., vice president of the Illinois Traction System, will speak before the electrical board of trade at Hotel Statler at 12:15 p. m. tomorrow on "Electric Railway Transportation."

# Your Home and Castles of Kings

**T**HE towering castles of mighty monarchs of Sweden, places of majestic pomp and splendor, soon are to have installed running water and other modern conveniences, according to recent news dispatches from Stockholm.

For centuries, these castles have stood bleak and forbidding—lacking utterly the conveniences and comforts of the average American home of our day.

At the wave of a hand, the proud rulers who dwelt in them could summon an army of serfs to do their bidding.

But all the king's horses and all the king's men could not give the convenience, cheer and ease Electricity gives the modern home.

With this ever-ready power at her command, the modern housewife goes happily about her work, doing in a trice the household tasks that were time-consuming drudgery for the servants of the kings.

Electricity is the emancipator of the age. It has freed mankind from backbending toil and is giving humanity greater ease and leisure than has ever before been enjoyed—saving time—saving health—saving strength—and preserving youth.

Use electricity in your home freely. It is the smallest item in the family budget and is the greatest factor in helping make your home a cheerful place of comfort and convenience.

## HOW TO WASH WOOLENS

By HANNAH WING.

WOOLENS and the grime of  
soft coal! The perfect mix-  
ture for a laundry problem.  
The woollens can be washed  
without shrinking beyond recogni-  
tion and without stiffening beyond  
bending. And here's the  
recipe.

Following it don't take  
brakes—the water, all waters in  
fact, must be of moderate tem-  
perature and all the same, not hot,  
cold, and so must the air in  
which woollens are dried. Not out-  
ing to freeze—indeed not. But  
equally bad to steam and sizzle  
woollens over a hot radiator.

Even more important is a good  
detergent—pure and mild. The alkali  
detergent or harsh soap is what  
does the damage. But here is the  
recipe and mind what it says.  
Washing and drying. Those  
two points are important, too.

The water used for washing  
and rinsing woollens should be at  
the same temperature, about 110  
degrees F. Only mild soaps  
should be used and these should  
be in solution. Enough soap so-  
lution should be used to make  
suds.

If you use flakes—and these  
are excellent—make a quick  
suds with hot water and then cool  
suds down by adding cold wa-  
ter until the wash water is lukewarm.

Wash the woollens by  
squeezing them in the soapy water.  
Rub on a board. To remove  
stubborn spots of soil rub some  
of the soap solution directly on the  
spot with the palm of the hand.

It is possible to use a wringer, with  
pressure released, for pressing  
the water. If no wringer is  
available the fabric should be  
squeezed dry. Never wring by  
twisting, as it will stretch the gar-  
ment, especially if it be of the  
stiff type.

When blankets are hung over  
the one-half should hang on  
each side and the edges be pulled  
tight.

Washed garments should be laid  
on a pad of several thicknesses of  
towels to dry and the garment  
gently patted and pulled into  
shape while wet. Sweaters and  
knitings should have towels  
laid between sleeves, front and  
back of sweaters and inside of  
knitings.

Woollens in a moderate tem-  
perature and do not allow the ma-  
terial to freeze, as freezing may  
shrinkage.

Woollens should only be pressed,  
the fibre scorches easily and  
the seams glaze under the pres-  
sure of the iron. It is always ad-  
visable to use cheese cloth between  
garment and the iron, and use  
iron that is only moderately  
hot.

Woolens are so numerous in East  
England, this year that they  
have been seen in broad daylight  
on the lanes.

By 1882 the average number  
of patents issued by the British  
Patent Office was 3500. For 1923  
the number was over 17,000, not  
including the like number of de-  
signs and nearly 8000 trademarks.

THE RULE—MAKE IT  
YOUR STARTING POINT  
Wash your face gently  
with Palmolive Soap, massaging it  
into the skin. Rinse thoroughly  
with warm water, then with  
cold. If your skin is inclined to  
be dry, apply a touch of good cold  
cream that is all.

Do this regularly, and you  
will be in the evening. Use

Sixty million women and children in the United States patronized beauty parlors last year, spending approximately a total of \$398,000,000.

## THE RHYMING OPTIMIST

By ALINE MICHAELIS

My Choice.

If I were strangely granted choice of all Earth's lovely things, all sights that make the heart rejoice, all songs whose cadence rings, what would I choose, you ask me, friend, rare works by hands now lost, or gems whose beauty puts an end to thoughts of toil they cost? Or would I take to keep always some grace of field or wood, some loveliness of Autumn days and Earth in fairest mood? All these are good, but I would take a something better yet, so sweet that for its precious sake the rest I could forget. My choice would be a child's bright glance to shine at set of sun, a child's warm kiss, swift feet that dance to me, when toil is done.

## Children's Bedtime Story

By Thornton W. Burgess

Seeing Is Believing

Of course, I'll believe when I can see  
A Fox has really climbed a tree.

—Mrs. Reddy.

REDDY FOX almost lost his temper because Mrs. Reddy wouldn't believe the story he had told her of a strange Fox high up in a tree. Yes, sir, Reddy almost lost his temper. You know, it is very provoking to have people refuse to believe what you tell them when you know positively that it is true. But all Reddy's talking was in vain. Mrs. Reddy never had heard of a Fox climbing a tree, and she simply refused to believe that any Fox had done such a thing.

"I'll believe it when I see it," said she, "and not before."

But though Mrs. Reddy refused to believe, her curiosity was very much aroused. She knew by the way Reddy acted that he really had seen something out of the usual. She even suspected that Reddy really believed his own story. So Mrs. Reddy began spending a great deal of time in the Green Forest looking for that stranger. She heard of him often. Sammy Jay told her about him. So did Blacky the Crow. She wanted to ask them if they had seen the stranger in a tree, but she couldn't bring herself to do it. No, sir, she couldn't bring herself to the point of asking if they had seen that stranger in a tree. You see, she didn't want to be laughed at. She was sure that they would laugh at her for asking such a question. So she contented herself with making sure that there really was a strange Fox and that this Fox wore a gray coat instead of a red coat.

Now Mrs. Reddy is quite as smart as Reddy himself, and Reddy is one of the smartest of all the little people in the Green Forest and on the Green Meadows.

Mrs. Reddy remained perfectly still, peeping around the old stump.

It seemed as if anyone so smart ought to be able to find that stranger, but somehow Mrs. Reddy continually missed him. Time and again she found where he had been, but she was always just too late. Still she persisted. You see, Reddy, still insisted that it was all true about the stranger climbing a tree.

At last one day Mrs. Reddy found the stranger's trail and the scent was so strong that she knew he had passed only a few minutes before. Mrs. Reddy followed swiftly. This time she hoped to at least see the stranger. Luck was with her. As she peeked around an old stump, she saw standing out in a little open space, looking back as if he suspected he was being followed, Gray Fox himself.

He was about the size of Reddy Fox, but his legs were longer and he was a little more slender. His tail was not nearly as handsome as Reddy's or as her own. His coat was gray, trimmed with red across the breast, and he was red on the sides of his neck. There

was also red on his legs. But as a whole he looked gray, and this was why he had the name of Gray Fox, the Woods Fox.

Mrs. Reddy remained perfectly still, peeping around the old stump. Gray Fox didn't see her, but it was clear that he was uneasy and suspected that somebody was following him. After a moment or two, he turned and lightly bounded away. Instantly, Mrs. Reddy followed him. She found that Gray Fox was a fast runner. Mrs. Reddy is a fast runner herself. You know, before she was Mrs. Reddy, she was Miss Swift-foot.

Presently, she caught a glimpse of Gray Fox ahead of her. He disappeared behind a little hemlock tree. Mrs. Reddy hurried faster than ever, but when she peeked around that little hemlock tree, Gray Fox was nowhere to be seen. Yet she could see nothing behind which he could be hiding. If ever there was a puzzled Fox, it was Mrs. Reddy. She sat down with her head on one side to study things out. A bit of bark dropped from a tree just in front of her. She looked up. There was Gray Fox halfway up that tree. How Mrs. Reddy did stare!

"Reddy told the truth," she muttered to no one in particular. "Yes, sir, Reddy told the truth."

## Consistent High Quality Is the Watchword of the Kroger Bakery

The Kroger policy of selling absolutely the finest merchandise, at prices that overshadow all competition, is reflected in these dainty cakes—in the ingredients used—and in our methods.

For no commercial or substitute ingredients are used in the Kroger Bakeries. Instead, we use just what the most careful housewife or mother would use in her own kitchen—plenty of rich creamery butter, fresh eggs, pure milk, laboratory tested flour and purest extracts—combined with rarest artistry in cake making.

Not least in importance are the facts that Kroger cakes are always the freshest you can buy and much lower in price because of low overhead costs and the elimination of unnecessary frills in packing. Thus, in every way, they are the most desirable obtainable.
